ENGINEERING AS RECOMMENDED BY THE DEPARTMENT OF CHEMICAL ENGINEERING (COURSE 10-ENG)

Department of Chemical Engineering (http://catalog.mit.edu/ schools/engineering/chemical-engineering/#undergraduatetext)

Bachelor of Science in Engineering as Recommended by the Department of Chemical Engineering

General Institute Requirements (GIRs)

The General Institute Requirements include a Communication Requirement that is integrated into both the HASS Requirement and the requirements of each major; see details below.

Summary of Subject Requirements	Subjects
Science Requirement	6
Humanities, Arts, and Social Sciences (HASS) Requirement; at least two of these subjects must be designated as communication-intensive (CI-H) to fulfill the Communication Requirement.	8
Restricted Electives in Science and Technology (REST) Requirement [can be satisfied by 10.301 and 5.60 or 18.03 in the Departmental Program]	2
Laboratory Requirement (12 units) [can be satisfied by 1.106/1.107, 2.671, 3.014, 5.310, 10.702[J], or 12.335 in the Departmental Program]	1
Total GIR Subjects Required for SB Degree	17

Physical Education Requirement

Swimming requirement, plus four physical education courses for eight points.

Departmental Program

Choose at least two subjects in the major that are designated as communication-intensive (CI-M) to fulfill the Communication Requirement.

Required Su	bjects	Units
5.60	Thermodynamics and Kinetics	12
10.10	Introduction to Chemical Engineering	12
10.213	Chemical and Biological Engineering Thermodynamics	12
10.301	Fluid Mechanics	12
10.302	Transport Processes	12
10.37	Chemical Kinetics and Reactor Design	9
18.03	Differential Equations	12
	. =	

Foundational Concepts

All subjects are suitable for any concentration 39-45 within the program. In consultation with the advisor, students select one subject from each of the three groups. Students may not exceed the 45-unit cap except by petition.

Group I

Select one of the	following Course 10 CI-M subjects:
10.26	Chemical Engineering Projects Laboratory (CI-M)
10.27	Energy Engineering Projects Laboratory (CI-M) ¹
10.28	Chemical-Biological Engineering Laboratory (CI-M)
10.29	Biological Engineering Projects Laboratory (CI-M) ²
10.467	Polymer Science Laboratory (CI-M) ³

Group II

Select one of the following Institute Laboratory subjects. 5

Sι	subjects:			
	1.106 & 1.107	Environmental Fluid Transport Processes and Hydrology Laboratory and Environmental Chemistry and Biology Laboratory ⁴		
	2.671	Measurement and Instrumentation (CI-M)		
	3.014	Materials Laboratory (CI-M) ³		
	5.310	Laboratory Chemistry		
	10.702[J]	Introduction to Experimental Biology and Communication (CI-M) ²		
	12.335	Experimental Atmospheric Chemistry (CI-M) $^{\rm 4}$		
	20.109	Laboratory Fundamentals in Biological Engineering (CI-M) ²		

Group III

Select one of the following:

Select one of the following.				
1.00	Engineering Computation and Data Science			
1.018A[J] & 1.018B[J]	Fundamentals of Ecology I and Fundamentals of Ecology II			
1.080A & 1.080B	Environmental Chemistry I and Environmental Chemistry II ⁴			
3.012	Fundamentals of Materials Science and Engineering ³			
3.155[J]	Micro/Nano Processing Technology (CI-M) ³			
5.12	Organic Chemistry I			
5.61	Physical Chemistry			
6.00	Introduction to Computer Science and Programming			

	4	
8.21	Physics of Energy ¹	
Engineering Conc	entration	
of study in one of concentrations: b	es define a concentrated area the following designated iomedical engineering, energy, udies, or materials process and	39-48
Capstone		
of capstone exper Chemical Enginee	following options to obtain 12 units rience: Senior Thesis, Integrated ring or Integrated Chemical es modules, or Senior Project.	12
Option 1		
10.THU	Undergraduate Thesis	
Option 2		
Select any com	bination of the following:	
10.490	ntegrated Chemical Engineering I	
10.491 l	ntegrated Chemical Engineering II	
	Integrated Chemical Engineering Fopics I	
	ntegrated Chemical Engineering Topics II	
	ntegrated Chemical Engineering Topics III	
Option 3		
10.910	ndependent Research Problem	
and select any	combination of the following:	
.,	ntegrated Chemical Engineering Fopics I	
	ntegrated Chemical Engineering Topics II	
	ntegrated Chemical Engineering Topics III	
Units in Major		171-174
Unrestricted Elect	tives	48
Units in Major Tha	at Also Satisfy the GIRs	(36)

Genetics ²

7.03

The units for any subject that counts as one of the 17 GIR subjects cannot also be counted as units required beyond the GIRs.

Subject may be of particular interest for energy concentration.

Total Units Beyond the GIRs Required for SB Degree

- Subject may be of particular interest for biomedical engineering concentration.
- Subject may be of particular interest for materials process and design concentration.
- Subject may be of particular interest for environmental studies concentration.

- Combination of 5.351 Fundamentals of Spectroscopy, 5.352 Synthesis of Coordination Compounds and Kinetics, and 5.353 Late-stage Drug Modification and Selective Delivery is also an acceptable option and satisfies the Institute Laboratory GIR.
- In all cases, the electives must be chosen with the approval of the student's advisor and the department. Lists of recommended subjects for each concentration are available from the department, and $additional\ information\ on\ current\ subject\ of ferings\ is\ available\ on\ the$ Chemical Engineering Department website (http://mit.edu/cheme/ academics/course). Note that subjects that have been used to satisfy the foundational concepts may not also be counted toward the engineering concentration.
