MATHEMATICS WITH COMPUTER SCIENCE (COURSE 18-C)

Department of Mathematics (http://catalog.mit.edu/schools/science/mathematics/#undergraduatetext)

Bachelor of Science in Mathematics with Computer Science

General Institute Requirements (GIRs)
The General Institute Requirements include a Communication Requirement that is integrated into both the HASS Requirement and the requirements of each major; see details below.

Summary of Subject Requirements

Science Requirement
Humanities, Arts, and Social Sciences (HASS) Requirement; at least two of these subjects must be designated as communication-intensive (CI-H) to fulfill the Communication Requirement.

Restricted Electives in Science and Technology (REST) Requirement [can be satisfied by 18.03 or 18.06 and 18.062][J] (if taken under joint number 6.042[J]) in the Departmental Program]

Laboratory Requirement (12 units) [can be satisfied by 6.009 in the Departmental Program]

Total GIR Subjects Required for SB Degree

Physical Education Requirement
Swimming requirement, plus four physical education courses for eight points.

Departmental Program
Choose at least two subjects in the major that are designated as communication-intensive (CI-M) to fulfill the Communication Requirement.

Required Subjects

Foundational Subjects
18.03 Differential Equations
18.06 Linear Algebra

Discrete Mathematics
Select one of the following:
18.062[J] Mathematics for Computer Science
18.200 Principles of Discrete Applied Mathematics (15 units, CI-M)
18.200A Principles of Discrete Applied Mathematics

Computation and Algorithms

6.001 Introduction to Computer Science Programming in Python
6.006 Introduction to Algorithms
6.009 Fundamentals of Programming
18.400[J] Automata, Computability, and Complexity
or 18.404 Theory of Computation
18.410[J] Design and Analysis of Algorithms

Select one of the following: 3
6.031 Elements of Software Construction
6.034 Artificial Intelligence
6.036 Introduction to Machine Learning

Restricted Electives
Select four additional 12-unit subjects from Course 18

Select one additional subject of at least 12 units from Course 6 4

Units in Major

Units in Major That Also Satisfy the GIRs (24-36)

Total Units Beyond the GIRs Required for SB Degree

The units for any subject that counts as one of the 17 GIR subjects cannot also be counted as units required beyond the GIRs.

1 Students may substitute one of the more advanced subjects, 18.152 Introduction to Partial Differential Equations or 18.303 Linear Partial Differential Equations: Analysis and Numerics, for 18.03 Differential Equations, which places more emphasis on theory, is also an acceptable option.

2 Students may substitute 18.700 Linear Algebra, which places more emphasis on theory and proofs, or the more advanced subject, 18.701 Algebra I.

3 Students may substitute 6.033.

4 The overall program must consist of subjects of essentially different content, and must include at least five Course 18 subjects with a first decimal digit of 1 or higher.

5 The additional Course 6 subject may be 6.01, 6.02, 6.03, 6.170, 6.172, a Foundation or Header subject or, with the permission of the Department of Mathematics, an advanced Course 6 subject with sufficient mathematical content.

Communication-Intensive Subjects in the Major
To satisfy the requirements that students take two CI-M subjects, students must select one of the following options:
