Bachelor of Science in Mathematics (Applied Mathematics Option)

General Institute Requirements (GIRs)
The General Institute Requirements include a Communication Requirement that is integrated into both the HASS Requirement and the requirements of each major; see details below.

Physical Education Requirement
Swimming requirement, plus four physical education courses for eight points.

Departmental Program
Choose at least two subjects in the major that are designated as communication-intensive (CI-M) to fulfill the Communication Requirement.

Restricted Electives
Select four additional 12-unit Course 18 subjects from the following two groups with at least one subject from each group: 3

Group I—Probability and statistics, combinatorics, computer science

Group II—Numerical analysis, physical mathematics, nonlinear dynamics

Units in Major 108-111
Unrestricted Electives 81-84
Units in Major That Also Satisfy the GIRs (12)
Total Units Beyond the GIRs Required for SB Degree 180

The units for any subject that counts as one of the 17 GIR subjects cannot also be counted as units required beyond the GIRs.

1 Students may substitute one of the more advanced subjects 18.152 Introduction to Partial Differential Equations or 18.303 Linear Partial Differential Equations: Analysis and Numerics for 18.03, 18.032 Differential Equations, which places more emphasis on theory, is also an acceptable option.

2 Students may substitute 18.C06[J] Linear Algebra and Optimization, 18.700 Linear Algebra (which places more emphasis on theory and proofs), or the more advanced subject, 18.701 Algebra I.

3 A list of acceptable subjects (https://math.mit.edu/academics/undergrad/major/courses18/applied.php) is available from Math Academic Services and on the department’s website.

Communication-Intensive Subjects in the Major
