Restricted Electives
Select a coherent program of five additional subjects, two of which must be in philosophy, with approval of the major advisor.

Units in Major | 132
Unrestricted Electives | 84-120
Units in Major That Also Satisfy the GIRs (36-72)

Total Units Beyond the GIRs Required for SB Degree | 180

The units for any subject that counts as one of the 17 GIR subjects cannot also be counted as units required beyond the GIRs.
No more than four of the total number of philosophy subjects for the major may be introductory philosophy subjects. At least three of the total number of philosophy courses must be at the 200 level or above.

The introductory subject cannot also be used as a departmental distribution subject. Students may substitute an appropriate philosophy concourse subject.

Students may substitute another subject with a history of philosophy orientation, with the approval of the major advisor in consultation with the instructor.

Students may select a logic subject from another department (e.g., Mathematics) with the approval of their major advisor.

This chart has been calculated based on an overlap of 36 units (three subjects) between the HASS General Institute Requirement and the departmental requirements. Students who develop a program of study with more overlap will be able to select more unrestricted electives to meet the number of total units beyond the GIRs required for an SB degree.
