The Biomedical Engineering Minor (BME) program requires a total of seven subjects selected from a series of categories as outlined below.

**Programming and Computational Modeling Core**
- 6.100A Introduction to Computer Science 6
- 6.100B Introduction to Computational Thinking and Data Science 6

**Mathematics Core**
Select two of the following options:
1. 18.03 Differential Equations
2. Option A
   - 18.06 Linear Algebra
3. Option B
   - 6.100A Introduction to Computer Science
4. Option C
   - 18.03 Differential Equations
   - 18.06 Linear Algebra
   - 6.100B Introduction to Computational Thinking and Data Science

**Human Physiology Core**
Select one of the following:
1. 1.010 Probability and Causal Inference
2. 6.3700 Introduction to Probability
3. 9.07 Statistics for Brain and Cognitive Science
4. 6.4820 Quantitative and Clinical Physiology
5. 7.20 Human Physiology
6. 9.01 Introduction to Neuroscience

**Biomedical Engineering and Applications**
Select three of the following:
1. 2.184 Biomechanics and Neural Control of Movement
2. 2.750 Medical Device Design
3. 3.052 Nanomechanics of Materials and Biomaterials
4. 3.054 Cellular Solids: Structure, Properties, Applications
5. 3.055 Biomaterials Science and Engineering
6. 6.4530 Principles and Practice of Assistive Technology
7. 6.4810 Cellular Neurophysiology and Computing
8. 7.37 Molecular and Engineering Aspects of Biotechnology
9. 9.17 Systems Neuroscience Laboratory
10. 9.24 Disorders and Diseases of the Nervous System

A maximum of four subjects taken for the biomedical engineering minor can also count toward a major or another minor.

1. Contact minor advisor for additional 6–12 unit subjects that satisfy requirement.
2. Subject has prerequisites that are outside of the program.
3. At least one of the subjects must be taken outside the student’s major. See the BME Minor website for potential substitutions.
4. Approved biomedical engineering UROPs with sufficient medical focus carried out by students with junior or senior standing with prior approval may be substituted for up to 12 units.

Students should consult with their departmental BME minor advisor, preferably in sophomore year and no later than the end of the fall term of junior year, to choose a course of study, which must be approved in advance by the BME minor advisor. For the list of BME minor advisors and other information, please visit the Biological Engineering website or contact the BE Academic Office, Room 56-651, 617-253-1712.
