The Minor in Entrepreneurship and Innovation (E&I Minor) educates students to serve as leaders in the innovation economy with the knowledge, skills, and confidence to develop, scale, and deliver breakthrough solutions to real-world problems. They will be prepared to do so within a range of organizational contexts: an entrepreneurial start-up of their own, as key members of a founding team, or as an entrepreneurial member of a large organization.

Jointly offered by the Schools of Engineering and Management, the minor is designed as an interdisciplinary program with a coherent combination of conceptual and practical elements that draws on a wealth of prior educational activities in this domain.

Students who complete the E&I Minor will have developed knowledge and skills in:

- The innovation process from the conception of an initial invention and the problem it may solve to the refinement of the solution, to the considerations needed in the scale-up and delivery of the solution, to the launch of an appropriately funded entity.
- Communication, teamwork, decision making and leadership skills as well as the integrity and character that are necessary to engage with stakeholders and develop the invention into a real-world product or process.
- Strategies and methods to engage in rigorous iterations to identify and deeply understand societal needs/problems and develop robust, scalable solutions.
- Types of organizational models and designs for the delivery of innovations to the world.
- A range of global contexts for entrepreneurship and innovation, including variations in the interface with key stakeholders whose interests may enable or limit the potential effectiveness of innovation and entrepreneurship.

The minor requires five courses: a core curriculum of two E&I Foundations subjects and an elective subject in each of the three domains—E&I in Context, Leadership of Teams and Organizations, and E&I Experiential.

### Core Curriculum

<tr>
<td>15.373[J]</td>
<td>Venture Engineering</td>
<td>12</td>
</tr>
</tbody>
</table>

### Electives

#### E&I in Context

Select one of the following:

- 3.086 Innovation and Commercialization of Materials Technology
- 6.805[J] Foundations of Information Policy

#### Leadership of Teams and Organizations

Select one of the following:

- 2.96 Management in Engineering
- 6.915[J] Leading Innovation in Teams
- 10.02 Foundations of Entrepreneurship for Engineers
- 15.301 People, Teams, and Organizations Laboratory
- 15.3941 Entrepreneurial Founding and Teams

#### E&I Experiential

Select one of the following:

- 2.009 The Product Engineering Process
- 2.750[J] Medical Device Design
- 2.752 Development of Mechanical Products
- 2.760 Global Engineering
- 3.042 Materials Project Laboratory
- 6.170 Software Studio
- 6.811[J] Principles and Practice of Assistive Technology
- 10.807[J] Innovation Teams

- 11.005 Introduction to International Development
- 11.123 Big Plans and Mega-Urban Landscapes
- 11.142 Geography of the Global Economy
- 11.165 Urban Energy Systems and Policy
- 14.46 Innovation Policy and the Economy
- 15.3641 Regional Entrepreneurship Acceleration Leaders (REAL)
- 17.307 American Public Policy for Washington Interns
- 17.309[J] Science, Technology, and Public Policy
- 17.315 Health Policy
- STS.002 Finance and Society
- STS.004 Intersections: Science, Technology, and the World
- STS.011 Engineering Life: Biotechnology and Society
- STS.032 Energy, Environment, and Society
- STS.088 Africa for Engineers
- EC.701[J] D-Lab: Development

**Total Units**  51-60

1. Subject has prerequisites that are outside the program.

2. Students in the GEL1 Certificate program may satisfy the requirement by completing a combined 12 units of 6.902, 6.911, and 6.912.

3. With permission of the minor advisor, one 9- or 12-unit D-Lab subject meeting the criteria for this category may be substituted.

In special cases, other advanced project coursework may be substituted with the approval of the minor advisor. A minimum of three subjects (or 36 units) taken for the Entrepreneurship and Innovation minor cannot also count toward a student’s major or other minor.

For more information, contact the Innovation Initiative senior program manager, Thomas Luly (tluly@mit.edu), Room E70-1211, 617-452-5073.
