

URBAN STUDIES AND PLANNING (COURSE 11)

Introductory Subjects

11.001[J] Introduction to Urban Design and Development

Same subject as 4.250[J]

Prereq: None

U (Fall, Spring)

3-0-9 units. HASS-H

Examines the evolving structure of cities and the way that cities, suburbs, and metropolitan areas can be designed and developed. Surveys the ideas of a wide range of people who have addressed urban problems. Stresses the connection between values and design. Demonstrates how physical, social, political and economic forces interact to shape and reshape cities over time.

L. Vale

11.002[J] Making Public Policy

Same subject as 17.30[J]

Prereq: None

U (Fall)

4-0-8 units. HASS-S; CI-H

Examines how the struggle among competing advocates shapes the outputs of government. Considers how conditions become problems for government to solve, why some political arguments are more persuasive than others, why some policy tools are preferred over others, and whether policies achieve their goals. Investigates the interactions among elected officials, think tanks, interest groups, the media, and the public in controversies over global warming, urban sprawl, Social Security, health care, education, and other issues.

Staff

11.003[J] Methods of Policy Analysis

Same subject as 17.303[J]

Prereq: 11.002[J]; Coreq: 14.01

Acad Year 2021-2022: U (Spring)

Acad Year 2022-2023: Not offered

3-0-9 units. HASS-S

Provides students with an introduction to public policy analysis. Examines various approaches to policy analysis by considering the concepts, tools, and methods used in economics, political science, and other disciplines. Students apply and critique these approaches through case studies of current public policy problems.

Staff

11.004[J] People and the Planet: Environmental Histories and Engineering

Same subject as STS.033[J]

Subject meets with 11.204[J], IDS.524[J]

Prereq: None

U (Fall)

Not offered regularly; consult department

3-3-6 units. HASS-E

Explores historical and cultural aspects of complex environmental problems and engineering approaches to sustainable solutions. Introduces quantitative analyses and methodological tools to understand environmental issues that have human and natural components. Demonstrates concepts through a series of historical and cultural analyses of environmental challenges and their engineering responses. Builds writing, quantitative modeling, and analytical skills in assessing environmental systems problems and developing engineering solutions. Through environmental data gathering and analysis, students engage with the challenges and possibilities of engineering in complex, interacting systems, and investigate plausible, symbiotic, systems-oriented solutions. Students taking graduate version complete additional analysis of reading assignments and a more in-depth and longer final paper.

A. Slocum, R. Scheffler, J. Trancik

11.005 Introduction to International Development

Prereq: None

U (Spring)

3-0-9 units. HASS-S

Introduces the political economy of international economic development planning, using an applied, quantitative approach. Considers why some countries are able to develop faster than others. Presents major theories and models of development and underdevelopment, providing tools to understand the mechanisms and processes behind economic growth and broader notions of progress. Offers an alternative view of development, focusing on the persistence of dichotomies in current theory and practice. Using specific cases, explores how different combinations of actors and institutions at various scales may promote or inhibit economic development. Students re-examine conventional knowledge and engage critically with the assumptions behind current thinking and policy.

Staff

11.006 Poverty and Economic Security

Subject meets with 11.206
Prereq: None
Acad Year 2021-2022: Not offered
Acad Year 2022-2023: U (Spring)
3-0-9 units. HASS-S

Explores the evolution of poverty and economic security in the US within a global context. Examines the impacts of recent economic restructuring and globalization. Reviews current debates about the fate of the middle class, sources of increasing inequality, and approaches to advancing economic opportunity and security. Students taking graduate version complete additional assignments.
A. Glasmeier

11.007 Urban and Environmental Technology Implementation Lab

Prereq: None
U (Spring)
2-2-8 units

Real-world clients and environmental problems form the basis of a project in which teams of students develop strategies for analysis and implementation of new sensor technology within cities. Working closely with a partner or client based on the MIT campus or in Cambridge, students assess the environmental problem, implement prototypes, and recommend promising solutions to the client for implementation. Equipment and working space provided. Limited to 12.
D. Hsu

11.011 The Art and Science of Negotiation

Prereq: None
U (Fall)
3-0-9 units. HASS-S

Introduction to negotiation theory and practice. Applications in government, business, and nonprofit settings are examined. Combines a "hands-on" personal skill-building orientation with a look at pertinent tactical and strategic foundations. Preparation insights, persuasion tools, ethical benchmarks, and institutional influences are examined as they shape our ability to analyze problems, negotiate agreements, and resolve disputes in social, organizational, and political circumstances characterized by interdependent interests. Enrollment limited by lottery; consult class website for information and deadlines.
B. Verdini

11.013[J] American Urban History

Same subject as 21H.217[J]
Prereq: None
U (Spring)
2-0-7 units. HASS-H; CI-H

Seminar on the history of institutions and institutional change in American cities from roughly 1850 to the present. Among the institutions to be looked at are political machines, police departments, courts, schools, prisons, public authorities, and universities. Focuses on readings and discussions.
R. M. Fogelson

11.014[J] History of the Built Environment in the US

Same subject as 21H.218[J]
Prereq: None
U (Fall)
Not offered regularly; consult department
2-0-7 units. HASS-H; CI-H

Seminar on the history of selected features of the physical environment of urban America. Among the features considered are parks, cemeteries, tenements, suburbs, zoos, skyscrapers, department stores, supermarkets, and amusement parks.
R. M. Fogelson

11.015[J] Riots, Strikes, and Conspiracies in American History

Same subject as 21H.226[J]
Prereq: None
U (Fall)
3-0-9 units. HASS-H; CI-H

See description under subject 21H.226[J].
A. Pope

11.016[J] The Once and Future City

Same subject as 4.211[J]
Prereq: None
Acad Year 2021-2022: Not offered
Acad Year 2022-2023: U (Spring)
3-0-9 units. HASS-H; CI-H

Examines the evolving structure of cities, the dynamic processes that shape them, and the significance of a city's history for its future development. Develops the ability to read urban form as an interplay of natural processes and human purposes over time. Field assignments in Boston provide the opportunity to use, develop, and refine these concepts. Enrollment limited.
A. Spirn

11.021[J] Environmental Law, Policy, and Economics: Pollution Prevention and Control

Same subject as 1.801[J], 17.393[J], IDS.060[J]
 Subject meets with 1.811[J], 11.630[J], 15.663[J], IDS.540[J]
 Prereq: None
 U (Spring)
 3-0-9 units. HASS-S

Reviews and analyzes federal and state regulation of air and water pollution, hazardous waste, green-house gas emissions, and the production and use of toxic chemicals. Analyzes pollution as an economic problem and the failure of markets. Explores the role of science and economics in legal decisions. Emphasizes use of legal mechanisms and alternative approaches (such as economic incentives and voluntary approaches) to control pollution and encourage chemical accident and pollution prevention. Focuses on the major federal legislation, the underlying administrative system, and the common law in analyzing environmental policy, economic consequences, and the role of the courts. Discusses classical pollutants and toxic industrial chemicals, green-house gas emissions, community right-to-know, and environmental justice. Develops basic legal skills: how to read/understand cases, regulations, and statutes. Students taking graduate version are expected to explore the subject in greater depth.

N. Ashford, C. Caldart

11.022[J] Regulation of Chemicals, Radiation, and Biotechnology

Same subject as 1.802[J], IDS.061[J]
 Subject meets with 1.812[J], 10.805[J], 11.631[J], IDS.436[J], IDS.541[J]
 Prereq: IDS.060[J] or permission of instructor
 U (Spring)
 Not offered regularly; consult department
 3-0-9 units

Focuses on policy design and evaluation in the regulation of hazardous substances and processes. Includes risk assessment, industrial chemicals, pesticides, food contaminants, pharmaceuticals, radiation and radioactive wastes, product safety, workplace hazards, indoor air pollution, biotechnology, victims' compensation, and administrative law. Health and economic consequences of regulation, as well as its potential to spur technological change, are discussed for each regulatory regime. Students taking the graduate version are expected to explore the subject in greater depth.

N. Ashford, C. Caldart

11.025[J] D-Lab: Development

Same subject as EC.701[J]
 Subject meets with 11.472[J], EC.781[J]
 Prereq: None
 U (Fall)
 3-2-7 units. HASS-S

See description under subject EC.701[J]. Enrollment limited by lottery; must attend first class session.

S. L. Hsu, B. Sanyal

11.026[J] Downtown

Same subject as 21H.321[J]
 Subject meets with 11.339
 Prereq: None
 U (Spring)
 Not offered regularly; consult department
 2-0-7 units. HASS-H

See description under subject 21H.321[J].

R. M. Fogelson

11.027 City to City: Comparing, Researching and Writing about Cities

Prereq: Permission of instructor
 Acad Year 2021-2022: Not offered
 Acad Year 2022-2023: U (Spring)
 3-0-9 units. HASS-S

Introduces client-oriented research and the use of urban planning tools. Students work directly with government and community agencies to find solutions to real world problems; interview planners and other field experts, and write and present findings to client and community audiences. Opportunity to travel for research. Limited to 14; preference to Course 11 majors.

C. Abbanat

11.029[J] Mobility Ventures: Driving Innovation in Transportation Systems

Same subject as 15.3791[J]
 Subject meets with 11.529[J], 15.379[J]
 Prereq: None
 U (Fall)
 3-3-6 units

Explores technological, policy, behavioral and systems-wide frameworks for innovation in transportation systems, complemented with case studies across the mobility spectrum, from autonomous vehicles to urban air mobility to last-mile sidewalk robots. Students interact with a series of guest lecturers, including CEOs and other business and government executives who are actively reshaping the future of mobility. Includes a project module in which interdisciplinary teams of 4-5 students work for a business or a government to solve a real-world problem. Students taking graduate version complete additional assignments. Preference to juniors and seniors.

J. Zhao, J. Moavenzadeh, B. Aulet

11.041 Introduction to Housing, Community, and Economic Development (New)

Subject meets with 11.401
 Prereq: None
 U (Fall)
 3-0-9 units

Provides a critical introduction to the shape and determinants of political, social, and economic inequality in America, with a focus on racial and economic justice. Explores the role of the city in visions of justice. Analyzes the historical, political, and institutional contexts of housing and community development policy in the US, including federalism, municipal fragmentation, and decentralized public financing. Introduces major dimensions in US housing policy, such as housing finance, public housing policy, and state and local housing affordability mechanisms. Reviews major themes in community economic development, including drivers of economic inequality, small business policy, employment policy, and cooperative economics. Expectations and evaluation criteria differ for students taking graduate version.

J. Steil

11.066[J] China's Urbanization, Digital Technology and Innovation Market

Same subject as 15.2371[J]
 Subject meets with 11.366[J], 15.237[J]
 Prereq: None
 Acad Year 2021-2022: Not offered
 Acad Year 2022-2023: U (Spring; first half of term)
 3-0-3 units

Focuses on the digital/smart city and on the urbanization of China, the world's biggest digital market. Explores the challenges, tradeoffs and issues associated with venture entering China's urbanization market, and guides teams to establish key connections with local partners, customers, and other stakeholders. Student teams apply this knowledge to an innovation and entrepreneurship-focused action learning project in which they work towards launching pilots and establishing ventures in China. Students taking graduate version complete additional assignments.

Z. Tan, J. Grant, Y. Huang

11.074 Cybersecurity Clinic

Subject meets with 11.274
 Prereq: None
 U (Fall, Spring)
 2-4-6 units. REST

Provides an opportunity for MIT students to become certified in methods of assessing the vulnerability of public agencies (particularly agencies that manage critical urban infrastructure) to the risk of cyberattack. Certification involves completing an 8-hour, self-paced, online set of four modules during the first four weeks of the semester followed by a competency exam. Students who successfully complete the exam become certified. The certified students work in teams with client agencies in various cities around the United States. Through preparatory interactions with the agencies, and short on-site visits, teams prepare vulnerability assessments that client agencies can use to secure the technical assistance and financial support they need to manage the risks of cyberattack they are facing. Students taking graduate version complete additional assignments. Limited to 15.

L. Susskind

Specialized Subjects

11.107 Tools and Techniques for Inclusive Economic Development

Subject meets with 11.407

Prereq: None

U (Fall)

3-0-9 units

Introduces tools and techniques in economic development planning. Extensive use of data collection, analysis, and display techniques. Students build interpretive intuition skills through user experience design activities and develop a series of memos summarizing the results of their data analysis. These are aggregated into a final report, and include the tools developed over the semester. Students taking graduate version complete modified assignments focused on developing computer applications.

A. Glasmeier

11.111[J] Leadership in Negotiation: Advanced Applications

Same subject as 17.381[J]

Prereq: 11.011 or permission of instructor

U (Fall)

4-0-8 units. HASS-S

Building on the skills and strategies honed in 11.011, explores advanced negotiation practice. Emphasizes an experiential skill-building approach, underpinned by cutting-edge cases and innovative research. Examines applications in high-stakes management, public policy, social entrepreneurship, international diplomacy, and scientific discovery. Strengthens collaborative decision-making, persuasion, and leadership skills by negotiating across different media and through personalized coaching, enhancing students' ability to proactively engage stakeholders, transform organizations, and inspire communities. Limited by lottery; consult class website for information and deadlines.

B. Verdini

11.113 The Economic Approach to Cities and Environmental Sustainability

Subject meets with 11.413

Prereq: 1.010, 14.30, 18.650[J], or permission of instructor

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: U (Spring)

3-0-9 units. HASS-S

Can be repeated for credit.

Provides a systematic framework of the interplay (both tension and synergy) between urbanization and environmental sustainability from a global perspective. Enhances analytical reasoning and quantitative skills to assist evidence-based empirical study and policy design evaluation. Explores the causes and consequences of urban environmental quality dynamics, and provides econometric tools to quantify such relationships. Examines state-of-the-art research in this field by introducing empirical studies from both developing and developed countries (highlighting fast urbanization). Themes include urban production, households, transportation and form, as well as political economy and climate resilience. Students taking graduate version complete additional assignments.

S. Zheng

11.119 NEET Seminar: Digital Cities

Prereq: None

U (Spring)

1-0-2 units

Can be repeated for credit.

Seminar for students enrolled in the Digital Cities NEET thread. Focuses on topics around clean energy and sustainability in cities via guest lectures and research discussions.

C. Cong

11.123 Big Plans and Mega-Urban Landscapes

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: U (Spring)

3-0-6 units. HASS-S

Explores the physical, ecological, technological, political, economic and cultural implications of big plans and mega-urban landscapes in a global context. Uses local and international case studies to understand the process of making major changes to urban landscape and city fabric, and to regional landscape systems. Includes lectures by leading practitioners. Assignments consider planning and design strategies across multiple scales and time frames.

Staff

**11.124[*J*]
Introduction to Education: Looking Forward and Looking Back on Education**

Same subject as CMS.586[*J*]

Prereq: None

U (Fall)

3-6-3 units. HASS-S; CI-H

See description under subject CMS.586[*J*]. Limited to 25.

E. Klopfer

**11.125[*J*]
Introduction to Education: Understanding and Evaluating Education**

Same subject as CMS.587[*J*]

Prereq: None

U (Spring)

3-6-3 units. HASS-S; CI-H

See description under subject CMS.587[*J*]. Limited to 25.

E. Klopfer

**11.127[*J*]
Design and Development of Games for Learning (New)**

Same subject as CMS.590[*J*]

Subject meets with 11.252[*J*], CMS.863[*J*]

Prereq: None

U (Spring)

3-6-3 units. HASS-H

See description under subject CMS.590[*J*].

E. Klopfer

**11.129[*J*]
Educational Theory and Practice I**

Same subject as CMS.591[*J*]

Prereq: None. *Coreq:* CMS.586[*J*]

U (Fall)

3-0-9 units. HASS-S

See description under subject CMS.591[*J*]. Limited to 15; preference to juniors and seniors.

G. Schwanbeck

**11.130[*J*]
Educational Theory and Practice II**

Same subject as CMS.592[*J*]

Prereq: CMS.591[*J*]

U (IAP)

3-0-9 units

See description under subject CMS.592[*J*].

G. Schwanbeck

**11.131[*J*]
Educational Theory and Practice III**

Same subject as CMS.593[*J*]

Prereq: CMS.592[*J*]

U (Spring)

3-0-9 units. HASS-S

See description under subject CMS.593[*J*].

G. Schwanbeck

**11.133[*J*]
Dilemmas in Biomedical Ethics: Playing God or Doing Good?**

Same subject as 21A.302[*J*], WGS.271[*J*]

Prereq: None

U (Fall)

Not offered regularly; consult department

3-0-9 units. HASS-S

An introduction to the cross-cultural study of biomedical ethics. Examines moral foundations of the science and practice of western biomedicine through case studies of abortion, contraception, cloning, organ transplantation and other issues. Evaluates challenges that new medical technologies pose to the practice and availability of medical services around the globe, and to cross-cultural ideas of kinship and personhood. Discusses critiques of the biomedical tradition from anthropological, feminist, legal, religious, and cross-cultural theorists.

E. C. James

**11.134[*J*]
Infections and Inequalities: Interdisciplinary Perspectives on Global Health**

Same subject as HST.431[*J*]

Prereq: None

U (Spring)

Not offered regularly; consult department

3-0-9 units. HASS-S

Examines case studies in infectious disease outbreaks to demonstrate how human health is a product of multiple determinants, such as biology, sociocultural and historical factors, politics, economic processes, and the environment. Analyzes how structural inequalities render certain populations vulnerable to illness and explores the moral and ethical dimensions of public health and clinical interventions to promote health. Limited to 25.

E. James, A. Chakraborty

11.135[[Violence, Human Rights, and Justice

Same subject as WGS.270[[

Prereq: None

U (Spring)

Not offered regularly; consult department

3-0-9 units. HASS-S

An examination of the problem of mass violence and oppression in the contemporary world, and of the concept of human rights as a defense against such abuse. Explores questions of cultural relativism, race, gender and ethnicity. Examines case studies from war crimes tribunals, truth commissions, anti-terrorist policies and other judicial attempts to redress state-sponsored wrongs. Considers whether the human rights framework effectively promotes the rule of law in modern societies. Students debate moral positions and address ideas of moral relativism.

E. C. James

11.136 Global Mental Health

Prereq: None

U (Fall)

Not offered regularly; consult department

3-0-9 units. HASS-S

Provides skills to critically analyze issues of mental health in historical and cross-cultural contexts. Studies mental illness as a complex biopsychosocial experience embedded in particular political and economic frameworks. Examines the relationships among culture, gender, embodiment, and emotional distress; power inequalities and ideas of the "normal" and "abnormal;" and how such conceptions influence care-giving practices, whether in traditional or biomedical contexts. Evaluates how the disciplines of psychology, psychoanalysis, and psychiatry have developed in the West, and considers their influence on mental health interventions in global settings. Limited to 25.

E. James

11.137 Financing Economic Development and Housing

Subject meets with 11.437

Prereq: None

U (Spring)

4-0-8 units

Studies financing tools and program models to support and promote local economic development and housing. Overview of public and private capital markets and financing sources helps illustrate market imperfections that constrain economic and housing development. Explores federal housing and economic development programs as well as state and local public finance tools. Covers policies and program models. Investigates public finance practice to better understand how these finance programs affect other municipal operations. Students taking graduate version complete additional assignments. Limited to 25.

J. Levine

11.138 Crowd Sourced City: Civic Tech Prototyping (New)

Subject meets with 11.458

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: U (Spring)

3-0-9 units. HASS-S

Investigates the use of social media and digital technologies for planning and advocacy by working with actual planning and advocacy organizations to develop, implement, and evaluate prototype digital tools. Students use the development of their digital tools as a way to investigate new media technologies that can be used for planning. Students taking graduate version complete additional assignments.

C. D'Ignazio

11.139 The City in Film

Subject meets with 11.239

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: U (Spring)

2-2-5 units. HASS-H; CI-H

Surveys important developments in urbanism from 1900 to the present, using film as a lens to explore and interpret aspects of the urban experience in the US and abroad. Topics include industrialization, demographics, diversity, the environment, and the relationship between the community and the individual. Films vary from year to year but always include a balance of classics from the history of film, an occasional experimental/avant-garde film, and a number of more recent, mainstream movies. Students taking undergraduate version complete writing assignments that focus on observation, analysis, and the essay, and give an oral presentation. Limited to 18.

E. Glenn

11.140 Urbanization and Development

Subject meets with 11.480

Prereq: None

U (Spring)

Not offered regularly; consult department

3-0-9 units. HASS-S

Examines developmental dynamics of rapidly urbanizing locales, with a special focus on the developing world. Case studies from India, China, Mexico, Brazil, and South Africa form the basis for discussion of social, spatial, political and economic changes in cities spurred by the decline of industry, the rise of services, and the proliferation of urban mega projects. Emphasizes the challenges of growing urban inequality, environmental risk, citizen displacement, insufficient housing, and the lack of effective institutions for metropolitan governance. Students taking graduate version complete additional assignments.

Staff

11.142 Geography of the Global Economy

Prereq: None

U (Spring)

Not offered regularly; consult department

3-0-9 units. HASS-S

Analyzes implications of economic globalization for communities, regions, international businesses and economic development organizations. Uses spatial analysis techniques to model the role of energy resources in shaping international political economy. Investigates key drivers of human, physical, and social capital flows and their roles in modern human settlement systems. Surveys contemporary models of industrialization and places them in geographic context. Connects forces of change with their implications for the distribution of wealth and human well-being.

A. Glasmeier

11.143 Research Methods in Global Health and Development

Subject meets with 11.243

Prereq: None

U (Fall)

Not offered regularly; consult department

3-3-6 units. HASS-S

Provides training for students to critically analyze the relationship between "health" and "development." Draws upon the theory and methods of medical anthropology, social medicine, public health, and development to track how culture, history, and political economy influence health and disease in global communities. Students work in teams to formulate research questions, and collect and analyze qualitative data in clinical and community settings in the greater Boston area, in order to design effective development interventions aimed at reducing health disparities in the US and abroad. Students taking graduate version complete additional assignments.

E. C. James

11.144 Project Appraisal in Developing Countries

Subject meets with 11.484

Prereq: Permission of instructor

U (Spring)

Not offered regularly; consult department

3-0-9 units

Covers techniques of financial analysis of investment expenditures, as well as the economic and distributive appraisal of development projects. Critical analysis of these tools in the political economy of international development is discussed. Topics include appraisal's role in the project cycle, planning under conditions of uncertainty, constraints in data quality and the limits of rational analysis, and the coordination of an interdisciplinary appraisal team. Students taking graduate version complete additional assignments. Enrollment limited; preference to majors.

Y. Hong

11.145 International Housing Economics and Finance

Prereq: 14.01

U (Spring)

3-0-6 units

Credit cannot also be received for 11.355

Presents a theory of comparative differences in international housing outcomes. Introduces institutional differences in the ways housing expenditures are financed, and the economic determinants of housing outcomes, such as construction costs, land values, housing quality, and ownership rates. Analyzes the flow of funds to and from the different national housing finance sectors. Develops an understanding of the greater financial and macroeconomic implications of the mortgage credit sector, and how policies affect the ways housing asset fluctuations impact national economies. Considers the perspective of investors in international real estate markets and the risks and rewards involved. Draws on lessons from an international comparative approach, and applies them to economic and finance policies at the local, state/provincial, and federal levels within a country of choice. Meets with 11.355 when offered concurrently. Students taking graduate version complete additional assignments.

*A. Saiz***11.147 Budgeting and Finance for the Public Sector**

Subject meets with 11.487

Prereq: Permission of instructor

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: U (Spring)

3-0-9 units. HASS-S

Examines globally relevant challenges of adequately and effectively attending to public sector responsibilities for basic services with limited resources. Particular attention to the contexts of fiscal crises and rapid population growth, as well as shrinkage, through an introduction to methods and processes of budgeting, accounting, and financial mobilization. Case studies and practice exercises explore revenue strategies, demonstrate fiscal analytical competencies, and familiarize students with pioneering examples of promising budget and accounting processes and innovative funding mobilization via taxation, capital markets, and other mechanisms (e.g., land-value capture). Students taking graduate version explore the subject in greater depth.

*G. Carolini***11.148 Environmental Justice: Law and Policy**

Subject meets with 11.368

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: U (Fall)

3-0-9 units. HASS-S

Introduces frameworks for analyzing and addressing inequalities in the distribution of environmental benefits and burdens, particularly by race and by class. Explores the foundations and principles of the environmental justice movement from the perspectives of social science, public policy, and law. Introduces basic principles of US constitutional and environmental law, with a focus on equal protection and civil rights. Applies environmental justice principles to contemporary issues in urban policy and planning, including effects of and responses to climate change and global heating. Students taking graduate version complete additional assignments.

*J. Steil***11.149 Decarbonizing Urban Mobility (New)**

Subject meets with 11.449

Prereq: None

U (Fall)

3-3-6 units

Focuses on measuring and reducing emissions from passenger transportation. After examining travel, energy, and climate conditions, students review existing approaches to transport decarbonization. Evaluates new mobility technologies through their potential to contribute to (or delay) a zero emission mobility system. Students consider the policy tools required to achieve approaches to achieve change. Frames past and future emission reductions using an approach based on the Kata Identity, decomposing past (and potential future) emissions into their component pieces. Seeks to enable students to be intelligent evaluators of approaches to transportation decarbonization and equip them with the tools to develop and evaluate policy measures relevant to their local professional challenges. Students taking graduate version complete additional assignments.

*J. Zhao, A. Salzberg***11.150[J] Metropolis: A Comparative History of New York City**

Same subject as 21H.220[J]

Prereq: None

U (Fall)

Not offered regularly; consult department

3-0-9 units. HASS-H

See description under subject 21H.220[J].

C. Wilder

11.151[J] Youth Political Participation

Same subject as STS.080[J]

Prereq: None

U (Spring)

Not offered regularly; consult department

3-0-9 units. HASS-H

See description under subject STS.080[J]. Limited to 40.

J. S. Light

11.152[J] The Ghetto: From Venice to Harlem

Same subject as 21H.385[J]

Prereq: None

U (Fall)

Not offered regularly; consult department

See description under subject 21H.385[J].

C. Wilder

11.153[J] Shanghai and China's Modernization

Same subject as 21H.351[J]

Prereq: None

U (Fall)

Not offered regularly; consult department

2-0-10 units. HASS-H

See description under subject 21H.351[J].

Staff

11.154 Big Data, Visualization, and Society

Subject meets with 11.454

Prereq: None

U (Fall)

3-0-9 units. HASS-S

Data visualizations communicate the insights found in data to non-technical audiences. Students develop technical skills to work with big data to expose societal issues and communicate the insights. Focuses on different topics each year. After framing that topic, the first half of the subject focuses on learning to analyze the data with Python. The second half of the subject focuses on learning web-based data visualization tools (JavaScript and D3). Students learn data storytelling concepts and produce web-based data visualizations for their final projects. Throughout, students learn ethical data practices. Students taking graduate version complete additional assignments.

S. Williams

11.155[J] Data and Society

Same subject as STS.005[J]

Prereq: None

Acad Year 2021-2022: U (Spring)

Acad Year 2022-2023: Not offered

3-0-9 units. HASS-H

See description under subject STS.005[J].

E. Medina, S. Williams

11.156 Healthy Cities: Assessing Health Impacts of Policies and Plans

Subject meets with 11.356

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: U (Spring)

3-0-9 units

Examines the built, psychosocial, economic, and natural environment factors that affect health behaviors and outcomes. Introduces tools designed to integrate public health considerations into policymaking and planning. Provides extensive practical training in the application of health impact assessment (HIA) methodology, which brings a health lens to policy, budgeting, and planning debates. Emphasizes health equity and healthy cities. Students taking graduate version complete additional assignments. Limited to 30.

M. Arcaya

11.157[J] China's Growth: Political Economy, Business, and Urbanization

Same subject as 15.2391[J]

Subject meets with 11.257[J], 15.239[J]

Prereq: None

U (Spring; second half of term)

3-0-3 units

Examines different aspects of the growth of China, which has the second largest economy in the world. Studies the main drivers of Chinese economic growth and the forces behind the largest urbanization in human history. Discusses how to understand China's booming real estate market, and how Chinese firms operate to attain their success, whether through hard-working entrepreneurship or political connections with the government. Explores whether the top-down urban and industrial policy interventions improve efficiency or cause misallocation problems, and whether the Chinese political system is an enabler of Chinese growth or a potential impediment to the country's future growth prospects. Students taking graduate version complete additional assignments.

Y. Huang, S. Zheng, Z. Tan

11.158 Behavioral Science and Urban Mobility

Subject meets with 11.478

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: U (Spring)

3-0-9 units

Examines the behavioral foundation for policy design using urban transportation examples. Introduces multiple frameworks for understanding behavior while contrasting the perspectives of classic economic theory with behavioral economics and social psychology. Suggests corresponding policy interventions and establishes a mapping across behavior, theory, and policy. Presents a spectrum of instruments for positively influencing behavior and improving welfare. Challenges students to critique, design, implement and interpret experiments that nudge travel behavior. Brings behavioral insights to creative design of transport policies that are efficient and equitable as well as simple, consistent, transparent, acceptable, and adaptive to behavioral changes. Students taking graduate version complete additional assignments.

J. Zhao

11.159 Entrepreneurial Negotiation

Subject meets with 11.259

Prereq: None

U (Fall; partial term)

1-3-2 units

Combines online weekly face-to-face negotiation exercises and in-person lectures designed to empower budding entrepreneurs with negotiation techniques to protect and increase the value of their ideas, deal with ego and build trust in relationships, and navigate entrepreneurial bargaining under constraints of economic uncertainty and complex technical considerations. Students must complete scheduled weekly assignments, including feedback memos to counterpart negotiators, and meet on campus with the instructor to discuss and reflect on their experiences with the course. Students taking graduate version complete additional assignments.

L. Susskind

11.162 Politics of Energy and the Environment

Prereq: None

U (Spring)

Not offered regularly; consult department

3-0-9 units. HASS-S

Focuses on the politics of making local, state, national and international decisions on energy and the environment. Topics include implementing energy efficiency measures, siting nuclear and alternative energy plants, promoting oil and gas development offshore and in wilderness, adapting to climate change, handling toxic waste, protecting endangered species, and conserving water. Case studies include Cape Wind, disputes over oil and gas exploration in the Arctic, the response to Hurricane Katrina, and efforts to craft and comply with the greenhouse gas emissions limits.

Staff

11.164[J] Human Rights at Home and Abroad

Same subject as 17.391[J]

Subject meets with 11.497

Prereq: Permission of instructor

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: U (Fall)

2-0-10 units. HASS-S

Provides a rigorous and critical introduction to the history, foundation, structure, and operation of the human rights movement. Focuses on key ideas, actors, methods and sources, and critically evaluates the field. Addresses current debates in human rights, including the relationship with security, democracy, development and globalization, urbanization, equality (in housing and other economic and social rights; women's rights; ethnic, religious and racial discrimination; and policing/conflict), post-conflict rebuilding and transitional justice, and technology in human rights activism. No prior coursework needed, but work experience, or community service that demonstrates familiarity with global affairs or engagement with ethics and social justice issues, preferred. Students taking graduate version are expected to write a research paper.

B. Rajagopal

11.165 Urban Energy Systems and Policy

Subject meets with 1.286[()], 11.477[()]

Prereq: 14.01 or permission of instructor

U (Fall)

3-0-9 units. HASS-S

Examines efforts in developing and advanced nations and regions. Examines key issues in the current and future development of urban energy systems, such as technology, use, behavior, regulation, climate change, and lack of access or energy poverty. Case studies on a diverse sampling of cities explore how prospective technologies and policies can be implemented. Includes intensive group research projects, discussion, and debate. Students taking the graduate version complete additional assignments.

D. Hsu

11.166 Law, Social Movements, and Public Policy: Comparative and International Experience

Subject meets with 11.496

Prereq: Permission of instructor

U (Spring)

Not offered regularly; consult department

3-0-9 units. HASS-S

Studies the interaction between law, courts, and social movements in shaping domestic and global public policy. Examines how groups mobilize to use law to affect change and why they succeed and fail. Case studies explore the interplay between law, social movements, and public policy in current issues, such as gender, race, labor, trade, climate change/environment, and LGBTQ rights. Introduces theories of public policy, social movements, law and society, and transnational studies. Students taking graduate version complete additional assignments. Limited to 15.

B. Rajagopal

11.167[()] Global Energy: Politics, Markets, and Policy

Same subject as 14.47[()], 15.2191[()], 17.399[()]

Prereq: None

U (Spring)

Not offered regularly; consult department

3-0-9 units. HASS-S

Credit cannot also be received for 11.267[()], 15.219[()]

See description under subject 15.2191[()]. Preference to juniors, seniors, and Energy Minors.

V. Karplus

11.169 Global Climate Policy and Sustainability

Subject meets with 11.269

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: U (Spring)

3-0-9 units. HASS-S

Examines climate politics both nationally and globally. Addresses economic growth, environmental preservation, and social equity through the lens of sustainability. Uses various country and regional cases to analyze how sociopolitical, economic and environmental values shape climate policy. Students develop recommendations for making climate policy more effective and sustainable. Students taking the graduate version complete additional assignments.

Limited to 25.

J. Knox-Hayes

11.173[()] Infrastructure Design for Climate Change (New)

Same subject as 1.103[()]

Subject meets with 1.303[()], 11.273[()]

Prereq: Permission of instructor

U (Fall)

0-2-4 units

See description under subject 1.103[()]. Enrollment limited; preference to juniors and seniors.

H. Einstein

Laboratories

11.188 Introduction to Spatial Analysis and GIS Laboratory

Prereq: None

U (Fall, Spring)

3-3-6 units. Institute LAB

Credit cannot also be received for 11.205

An introduction to Geographic Information Systems (GIS), a tool for visualizing and analyzing spatial data. Explores how GIS can make maps, guide decisions, answer questions, and advocate for change. Class builds toward a project in which students critically apply GIS techniques to an area of interest. Students build data discovery, cartography, and spatial analysis skills while learning to reflect on their positionality within the research design process. Because maps and data are never neutral, the class incorporates discussions of power, ethics, and data throughout as part of a reflective practice. Instruction and practice in oral and written communication provided.

S. Williams, C. D'Ignazio, E. Huntley

Tutorials, Fieldwork, and Internships

11.UR Undergraduate Research

Prereq: None

U (Fall, IAP, Spring, Summer)

Units arranged [P/D/F]

Can be repeated for credit.

Undergraduate research opportunities in Urban Studies and Planning. For further information, consult the Departmental Coordinators.

J. Ferreira, Jr.

11.URG Undergraduate Research

Prereq: None

U (Fall, IAP, Spring, Summer)

Units arranged

Can be repeated for credit.

Undergraduate research opportunities in Urban Studies and Planning. For further information, consult the Departmental Coordinators.

E. Klopfer

11.THT[J] Thesis Research Design Seminar

Same subject as 4.THT[J]

Prereq: None

U (Fall)

3-0-9 units

Can be repeated for credit.

Designed for students writing a thesis in Urban Studies and Planning or Architecture. Develop research topics, review relevant research and scholarship, frame research questions and arguments, choose an appropriate methodology for analysis, and draft introductory and methodology sections.

C. Abbanat

11.THU Undergraduate Thesis

Prereq: 11.THT[J]

U (Fall, IAP, Spring, Summer)

Units arranged

Can be repeated for credit.

Program of research leading to the writing of an SB thesis. To be arranged by the student under approved supervision.

Staff

11.189-11.190 Urban Fieldwork

Prereq: None

U (Fall, Spring)

Units arranged [P/D/F]

Can be repeated for credit.

Practical application of city and regional planning techniques to towns, cities, and regions, including problems of replanning, redevelopment, and renewal of existing communities. Includes internships, under staff supervision, in municipal and state agencies and departments.

Staff

11.191-11.192 Independent Study

Prereq: None

U (Fall, IAP, Spring)

Units arranged [P/D/F]

Can be repeated for credit.

For undergraduates wishing to pursue further study in specialized areas of urban studies or city and regional planning not covered in regular subjects.

Staff

11.193-11.194 Supervised Readings

Prereq: None

U (Fall, Spring)

Units arranged [P/D/F]

Can be repeated for credit.

Reading and discussion of topics in urban studies and planning.

Staff

11.S03 Special Subject: Transportation Shaping Sustainable Urbanization: Connections with Behavior, Urban Economics and Planning

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: U (Fall; first half of term)

1-0-1 units

Explores changes in the built environment expected from transportation investments, and how they can be used to promote sustainable and equitable cities. Reflects on how notable characteristics of cities can be explained by their historical and current transportation features. From a historical perspective, e.g., discusses how central areas of most European cities created during the pre-modern transportation era are more walkable, dense, and diverse; and the auto-oriented North American suburbs sprawling during the massive increase in car ownership. Introduces theoretical basis and empirical evidence to analyze the urban transformation autonomous vehicles will bring and how shared mobility services affect travel behavior, and its implications from an urban planning perspective. Lectures interspersed with guest speakers and an optional field trip. Subject can count toward the 6-unit discovery-focused credit limit for first-year students. Limited to 18.

F. Duarte, A. Borges Costa

11.S04 Special Subject: Topics in Affordable Housing (New)

Prereq: None

U (Spring)

1-0-2 units

Weekly seminar-style discussions on topics in affordable housing, including federal funding programs, homelessness prevention and shelters, local land use and zoning for affordability, innovative housing models/designs, fair housing laws, the history of public housing in the US, and international comparisons. Subject can count toward the 6-unit discovery-focused credit limit for first year students.

Ezra Haber Glenn

11.S187 Special Subject: Urban Studies and Planning

Prereq: None

U (Spring)

Units arranged [P/D/F]

Can be repeated for credit.

For undergraduates wishing to pursue further study or fieldwork in specialized areas of urban studies or city and regional planning not covered in regular subjects of instruction.

Staff

11.S188 Special Subject: Urban Studies and Planning

Prereq: None

U (Fall)

Units arranged [P/D/F]

Can be repeated for credit.

For undergraduates wishing to pursue further study or fieldwork in specialized areas of urban studies or city and regional planning not covered in regular subjects of instruction.

Staff

11.S189 Special Subject: Urban Studies and Planning

Prereq: None

U (Spring)

Units arranged [P/D/F]

Can be repeated for credit.

For undergraduates wishing to pursue further study or fieldwork in specialized areas of urban studies or city and regional planning not covered in regular subjects of instruction.

Staff

11.S195 Special Subject: Urban Studies and Planning

Prereq: None

U (Fall)

Units arranged

Can be repeated for credit.

For undergraduates wishing to pursue further study or fieldwork in specialized areas of urban studies or city and regional planning not covered in regular subjects of instruction.

Staff

11.S196-11.S199 Special Subject: Urban Studies and Planning

Prereq: None

U (Spring)

Units arranged

Can be repeated for credit.

For undergraduates wishing to pursue further study or fieldwork in specialized areas of urban studies or city and regional planning not covered in regular subjects of instruction. 11.S198 is graded P/D/F.

Staff

Master's Core Subjects

11.200 Gateway: Urban Studies and Planning 1 (New)

Prereq: None

G (Fall)

4-1-7 units

Introduces the theory and practice of planning and urban studies through exploration of the history of the field, case studies, and criticisms of traditional practice.

Faculty

11.201 Gateway: Urban Studies and Planning 2

Prereq: 11.200

G (Spring)

4-1-7 units

Builds on 11.200 by exploring in more detail contemporary planning tools and techniques, as well as case studies of planning and urban studies practice.

Faculty

11.202 Planning Economics

Prereq: 11.203

G (Spring; partial term)

2-0-2 units

Introduces applications of microeconomic theory to planning problems including urban form and structure, government's role in urban settings and problems of housing finance.

A. Saiz

11.203 Microeconomics

Prereq: None

G (Spring; partial term)

3-0-5 units

Introduces basic economic analysis for planning students including the functioning of markets, the allocation of scarce resources among competing uses, profit maximizing behavior in different market structures. Course illustrates theory with contemporary economic issues.

A. Saiz

11.204[J] People and the Planet: Environmental Histories and Engineering

Same subject as IDS.524[J]

Subject meets with 11.004[J], STS.033[J]

Prereq: None

G (Spring)

Not offered regularly; consult department

3-3-6 units

Explores historical and cultural aspects of complex environmental problems and engineering approaches to sustainable solutions. Introduces quantitative analyses and methodological tools to understand environmental issues that have human and natural components. Demonstrates concepts through a series of historical and cultural analyses of environmental challenges and their engineering responses. Builds writing, quantitative modeling, and analytical skills in assessing environmental systems problems and developing engineering solutions. Through environmental data gathering and analysis, students engage with the challenges and possibilities of engineering in complex, interacting systems, and investigate plausible, symbiotic, systems-oriented solutions. Students taking graduate version complete additional analysis of reading assignments and a more in-depth and longer final paper.
A. Slocum, R. Scheffler, J. Trancik

11.205 Introduction to Spatial Analysis and GIS

Prereq: None

G (Fall, Spring; first half of term)

2-2-2 units

Credit cannot also be received for 11.188

An introduction to Geographic Information Systems (GIS): a tool for visualizing and analyzing data representing locations and their attributes. GIS is invaluable for planners, scholars, and professionals who shape cities and a political instrument with which activists advocate for change. Class includes exercises to make maps, query databases, and analyze spatial data. Because maps and data are never neutral, the class incorporates discussions of power, ethics, and data throughout as part of a reflective practice. Limited enrollment; preference to first-year MCP students.

S. Williams, C. D'Ignazio, E. Huntley

11.206 Poverty and Economic Security

Subject meets with 11.006
Prereq: None
Acad Year 2021-2022: Not offered
Acad Year 2022-2023: G (Spring)
3-0-9 units

Explores the evolution of poverty and economic security in the US within a global context. Examines the impacts of recent economic restructuring and globalization. Reviews current debates about the fate of the middle class, sources of increasing inequality, and approaches to advancing economic opportunity and security. Students taking graduate version complete additional assignments.
A. Glasmeier

11.220 Quantitative Reasoning and Statistical Methods for Planning I

Prereq: Permission of instructor
G (Fall)
4-2-6 units

Develops logical, empirically based arguments using statistical techniques and analytic methods. Covers elementary statistics, probability, and other types of quantitative reasoning useful for description, estimation, comparison, and explanation. Emphasizes the use and limitations of analytical techniques in planning practice. Restricted to MCP students.
A. Saiz

Department-wide Subjects

11.222 Introduction to Critical Qualitative Methods (New)

Prereq: None
G (Spring; first half of term)
3-0-3 units

Introduces qualitative methods as an approach to critical inquiry in urban planning research and practice. Emphasizes the importance of historical context, place-specificity, and the experiences and views of individuals as ways of knowing relationships of power and privilege between people, in place, and over time. Explores a range of critical qualitative methods including those used in archival, interview, observational, visual, and case study analysis.
Faculty

11.228[J] Collectives: New Forms of Sharing

Same subject as 4.229[J]
Prereq: Permission of instructor
G (Spring)
3-0-9 units

See description under subject 4.229[J]. Limited to 15.
Consult R. Segal

11.233 Research Design for Policy Analysis and Planning

Prereq: Permission of instructor
G (Fall)
3-0-9 units

Develops skills in research design for policy analysis and planning. Emphasizes the logic of the research process and its constituent elements. Topics include philosophy of science, question formulation, hypothesis generation and theory construction, data collection techniques (e.g. experimental, survey, interview), ethical issues in research, and research proposal preparation. Limited to doctoral students in Course 11.
A. Glasmeier

11.234 Making Sense: Qualitative Methods for Designers and Planners

Prereq: None
Acad Year 2021-2022: Not offered
Acad Year 2022-2023: G (Spring)
3-3-6 units

Surveys uses of qualitative methods and social theory in urban design and planning research and practice. Topics include observing environments, physical traces, and environmental behavior; asking questions; focused interviews; standardized questionnaires; use of written archival materials; use of visual materials, including photographs, new media, and maps; case studies; and comparative methods. Emphasizes use of each of these skills to collect and make sense of qualitative data in community and institutional settings.
E. C. James

11.236 Participatory Action Research (PAR) 1

Prereq: None
G (Fall; first half of term)
2-0-4 units

Introduces students to participatory action research (PAR), an approach to research and inquiry that enables communities to examine and address consequential societal problems. Explores theoretical and practical questions at the heart of partnerships between applied social scientists and community partners. Focus includes the history of PAR and action research; debates regarding PAR as a form of applied social science; and practical, political, and ethical questions in the practice of PAR. Guides students through an iterative process for developing their own personal theories of practice.
D. Cunningham

11.237 Participatory Action Research (PAR) 2

Prereq: None

G (Fall; second half of term)

3-0-3 units

Focuses on co-designing and co-conducting research with community partners at various stages of the research process; examination of actual cases in which PAR-like methods have been used with greater or lesser success; and interaction with community members, organizations, and individuals who have been involved in PAR collaborations. Students produce a PAR research proposal, as well as content that can be added to the PAR website.

*D. Cunningham***11.238[] Ethics of Intervention**

Same subject as 21A.409[]

Prereq: Permission of instructor

G (Fall)

Not offered regularly; consult department

3-0-9 units

An historical and cross-cultural study of the logics and practices of intervention: the ways that individuals, institutions, and governments identify conditions of need or states of emergency within and across borders that require a response. Examines when a response is viewed as obligatory, when is it deemed unnecessary, and by whom; when the intercession is considered fulfilled; and the rationales or assumptions that are employed in assessing interventions. Theories of the state, globalization, and humanitarianism; power, policy, and institutions; gender, race, and ethnicity; and law, ethics, and morality are examined.

*E. C. James***11.239 The City in Film**

Subject meets with 11.139

Prereq: Permission of instructor

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Spring)

2-2-5 units

Surveys important developments in urbanism from 1900 to the present, using film as a lens to explore and interpret aspects of the urban experience in the US and abroad. Topics include industrialization, demographics, diversity, the environment, and the relationship between the community and the individual. Films vary from year to year but always include a balance of classics from the history of film, an occasional experimental/avant-garde film, and a number of more recent, mainstream movies. Students taking undergraduate version complete writing assignments that focus on observation, analysis, and the essay, and give an oral presentation.

*E. Glenn***11.243 Research Methods in Global Health and Development**

Subject meets with 11.143

Prereq: None

G (Fall)

Not offered regularly; consult department

3-3-6 units

Provides training for students to critically analyze the relationship between "health" and "development." Draws upon the theory and methods of medical anthropology, social medicine, public health, and development to track how culture, history, and political economy influence health and disease in global communities. Students work in teams to formulate research questions, and collect and analyze qualitative data in clinical and community settings in the greater Boston area, in order to design effective development interventions aimed at reducing health disparities in the US and abroad. Students taking graduate version complete additional assignments.

*E. C. James***11.244[] Race, History, and the Built Environment**

Same subject as STS.424[]

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Spring)

3-0-9 units

Examines how the development of the built environment produces and reproduces conceptions of race - sociobiological theories of human difference. Using historical and cross-cultural cases, tracks the social and political lives of material objects, infrastructures, technologies, and architectures during projects of settler colonialism, nation-building, community development and planning, and in post-conflict and post-disaster settings. Analyzes social theories of race, place, space, and materiality; power, identity, and embodiment; and memory, death, and haunting. Explores how conceptions of belonging, citizenship, and exclusion are represented and designed spatially through analysis of examples, such as the appropriation of land for infrastructure programs, the erasure and commemoration of heritage in public spaces, and the use of the built environment to impose colonial ideologies. Limited to 14 students.

Erica James

11.245[J] DesignX Entrepreneurship

Same subject as 4.245[J]
Prereq: Permission of instructor
G (IAP)
4-0-2 units

Students in teams accepted to the MITdesignX accelerator begin work on their ventures in this intense two-week bootcamp. Participants identify the needs and problems that demonstrate the demand for their innovative technology, policy, products, and/or services. They research and investigate various markets and stakeholders pertinent to their ventures, and begin to test their ideas and thesis in real-world interviews and interactions. Subject presented in workshop format, giving teams the chance to jump-start their ventures together with a cohort of people working on ideas that span the realm of design, planning real estate, and the human environment. Registration limited to students accepted to the MITdesignX accelerator in the fall.

S. Gronfeldt, D. Frenchman, G. Rosenzweig

11.246[J] DesignX Accelerator

Same subject as 4.246[J]
Prereq: Permission of instructor
G (Spring)
2-4-6 units

Students work in entrepreneurial teams to advance innovative ideas, products, services, and firms oriented to design and the built environment. Lectures, demonstrations, and presentations are supplemented by workshop time, when teams interact individually with instructors and industry mentors, and by additional networking events and field trips. At the end of the term, teams pitch for support of their venture to outside investors, accelerators, companies, or cities. Limited to 30; preference to students in DesignX Program.

D. Frenchman, G. Rosenzweig

11.250 Transportation Research Design

Prereq: Permission of instructor
Acad Year 2021-2022: Not offered
Acad Year 2022-2023: G (Fall, Spring)
2-0-1 units
Can be repeated for credit.

Seminar dissects ten transportation studies from head to toe to illustrate how research ideas are initiated, framed, analyzed, evidenced, written, presented, criticized, revised, extended, and published, quoted and applied. Students design and execute their own transportation research. Limited to 20.

J. Zhao

11.251 Frontier of Transportation Research (New)

Prereq: None
Acad Year 2021-2022: Not offered
Acad Year 2022-2023: G (Fall)
1-0-2 units
Can be repeated for credit.

Survey of the latest transportation research offered by 12 MIT faculty each presenting their ongoing research. Students are required to attend the classes, read the assigned articles, and write a brief reflection memo.

Jinhua Zhao

11.252[J] Design and Development of Games for Learning (New)

Same subject as CMS.863[J]
Subject meets with 11.127[J], CMS.590[J]
Prereq: None
G (Spring)
3-6-3 units

See description under subject CMS.863[J].

E. Klopfer

11.255 Negotiation and Dispute Resolution in the Public Sector

Prereq: None
G (Spring)
4-0-8 units

Investigates social conflict and distributional disputes in the public sector. While theoretical aspects of conflict and consensus building are considered, focus is on the practice of negotiation and dispute resolution. Comparisons between unassisted and assisted negotiation are reviewed along with the techniques of facilitation and mediation.

L. Susskind

11.256[J] Encounters and Ruptures: Writing About the Modern City (New)

Same subject as 4.256[J]
 Prereq: Permission of instructor
 G (Fall, Spring)
 2-0-7 units

Through extensive reading and writing, students explore the promise and perils of the variegated city, focusing on topics that demand urgent attention: migration, climate change, inequality, racial injustice, and public space. Class strives to create artful narratives by examining how various forms — essay, memoir, longform journalism, poetry, fiction, film, and photography — illuminate our understanding of cities. Special emphasis on the writer as the reader's advocate and on the indispensability of the writer-editor relationship, with the goal of writing with greater creativity and sophistication for specialized and general interest audiences. Limited to 12 students.

G. Cadogan

11.257[J] China's Growth: Political Economy, Business, and Urbanization

Same subject as 15.239[J]
 Subject meets with 11.157[J], 15.2391[J]
 Prereq: None
 G (Spring; second half of term)
 3-0-3 units

Examines different aspects of the growth of China, which has the second largest economy in the world. Studies the main drivers of Chinese economic growth and the forces behind the largest urbanization in human history. Discusses how to understand China's booming real estate market, and how Chinese firms operate to attain their success, whether through hard-working entrepreneurship or political connections with the government. Explores whether the top-down urban and industrial policy interventions improve efficiency or cause misallocation problems, and whether the Chinese political system in an enabler of Chinese growth or a potential impediment to the country's future growth prospects. Students taking graduate version complete additional assignments.

Y. Huang, S. Zheng, Z. Tan

11.259 Entrepreneurial Negotiation

Subject meets with 11.159
 Prereq: None
 G (Fall; partial term)
 1-3-2 units

Combines online weekly face-to-face negotiation exercises and in-person lectures designed to empower budding entrepreneurs with negotiation techniques to protect and increase the value of their ideas, deal with ego and build trust in relationships, and navigate entrepreneurial bargaining under constraints of economic uncertainty and complex technical considerations. Students must complete scheduled weekly assignments, including feedback memos to counterpart negotiators, and meet on campus with the instructor to discuss and reflect on their experiences with the course. Students taking graduate version complete additional assignments.

L. Susskind

11.260 Sustainable Development and Institutions

Prereq: None
 G (Fall)
 Not offered regularly; consult department
 3-0-9 units

Explores the theory and application of the principles of sustainable development as they relate to organizational change management, decision-making processes, goal setting methodology and solution development. Leverages the MIT campus as a living laboratory to gain unique insight into the change management and solution development process. Limited to 18.

J. Newman

11.263[J] Urban Last-Mile Logistics

Same subject as 1.263[J], SCM.293[J]
 Prereq: SCM.254 or permission of instructor
 G (Spring; second half of term)
 2-0-4 units

See description under subject SCM.293[J].

M. Winkenbach

11.267[J] Global Energy: Politics, Markets, and Policy

Same subject as 15.219[J]
 Prereq: None
 G (Spring)
 Not offered regularly; consult department
 3-0-9 units
 Credit cannot also be received for 11.167[J], 14.47[J], 15.2191[J], 17.399[J]

See description under subject 15.219[J].

V. Karplus

11.269 Global Climate Policy and Sustainability

Subject meets with 11.169

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Spring)

3-0-9 units

Examines climate politics both nationally and globally. Addresses economic growth, environmental preservation, and social equity through the lens of sustainability. Uses various country and regional cases to analyze how sociopolitical, economic and environmental values shape climate policy. Students develop recommendations for making climate policy more effective and sustainable. Students taking graduate version complete additional assignments. Limited to 25.

J. Knox-Hayes

11.273[J] Infrastructure Design for Climate Change (New)

Same subject as 1.303[J]

Subject meets with 1.103[J], 11.173[J]

Prereq: Permission of instructor

G (Fall)

0-2-4 units

See description under subject 1.303[J].

H. Einstein

11.274 Cybersecurity Clinic

Subject meets with 11.074

Prereq: None

G (Fall, Spring)

2-4-6 units

Provides an opportunity for MIT students to become certified in methods of assessing the vulnerability of public agencies (particularly agencies that manage critical urban infrastructure) to the risk of cyberattack. Certification involves completing an 8-hour, self-paced, online set of four modules during the first four weeks of the semester followed by a competency exam. Students who successfully complete the exam become certified. The certified students work in teams with client agencies in various cities around the United States. Through preparatory interactions with the agencies, and short on-site visits, teams prepare vulnerability assessments that client agencies can use to secure the technical assistance and financial support they need to manage the risks of cyberattack they are facing. Students taking graduate version complete additional assignments. Limited to 15.

L. Susskind

Program Group Subjects

11.301[J] Introduction to Urban Design and Development

Same subject as 4.252[J]

Prereq: Permission of instructor

G (Fall)

3-0-9 units

Examines the physical and social structure of cities and ways they can be changed. Includes significant thinkers in urban form, 20th-century American city design, urban design and society, global urban design, and design of neighborhoods and streets. Core lectures are supplemented by student papers examining the relationship of contemporary projects to history and theory, and factors of high quality global urban design and development. Guest speakers present cases involving current projects or research illustrating scope and methods of urban design theory and practice. Intended for those seeking an introduction to fundamental knowledge of theory and praxis in city design and development.

B. Ryan

11.302[J] Urban Design Politics

Same subject as 4.253[J]

Prereq: Permission of instructor

G (Spring)

3-0-9 units

Examines ways urban design contributes to distribution of political power and resources in cities. Investigates the nature of relations between built form and political purposes through close study of a wide variety of situations where public sector design commissions and planning processes have been clearly motivated by political pressures. Lectures and discussions focus on specific case studies of 20th-century government-sponsored designs carried out under diverse regimes in the US, Europe, and elsewhere.

L. Vale

11.303[J] Real Estate Development Studio

Same subject as 4.254[J]

Prereq: Permission of instructor

G (Spring)

6-0-12 units

Focuses on the synthesis of urban, mixed-use real estate projects, including the integration of physical design and programming with finance and marketing. Interdisciplinary student teams analyze how to maximize value across multiple dimensions in the process of preparing professional development proposals for sites in US cities and internationally. Reviews emerging real estate products and innovative developments to provide a foundation for studio work. Two major projects are interspersed with lectures and field trips. Integrates skills and knowledge in the MSRED program; also open to other students interested in real estate development by permission of the instructors.

*K. Shen***11.304[J] Site and Environmental Systems Planning**

Same subject as 4.255[J]

Prereq: Permission of instructor

G (Spring)

6-0-9 units

Introduces a range of practical approaches involved in evaluating and planning sites within the context of natural and cultural systems. Develops the knowledge and skills to analyze and plan a site for development through exercises and an urban design project. Topics include land inventory, urban form, spatial organization of uses, parcelization, design of roadways, grading, utility systems, off-site impacts, and landscape strategies.

*M. A. Ocampo***11.305 Doing Good by Doing Well: Planning and Development Case Studies that Promote both the Public Good and Real Estate Value**

Prereq: None

G (Fall)

2-0-1 units

Seminar studies how the messy and complex forces of politics, planning and the real estate market have collectively shaped Boston's urban fabric and skyline in the last two decades. Using some of the city's most important real estate development proposals as case studies, students dissect and analyze Boston's negotiated development review and permitting process to understand what it takes beyond a great development concept and a sound financial pro forma to earn community and political support. Throughout the term, students identify strategies for success and pitfalls for failure within this intricate approval process, as well as how these lessons can be generalized and applied to other cities and real estate markets.

*K. Shen***11.307[J] China Urban Design Studio**

Same subject as 4.173[J]

Prereq: Permission of instructor

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Spring)

0-21-0 units

Design studio that includes architects, urban designers, and city planners working in teams on a contemporary development project of importance in China, particularly in transitional, deindustrializing cities. Students analyze conditions, explore alternatives, and synthesize architecture, city design, and implementation plans. Lectures and brief study tours expose students to history and contemporary issues of urbanism in China. Offered every other spring at MIT in parallel with urban design studio at Tsinghua University, Beijing, involving students and faculty from both schools. Field visit to China will occur in January prior to studio. Limited to 10.

*B. Ryan***11.308[J] Ecological Urbanism Seminar**

Same subject as 4.213[J]

Prereq: Permission of instructor

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Spring)

3-0-9 units

Examines the urban environment as a natural phenomenon, human habitat, medium of expression, and forum for action. Subject has two related, major themes: how ideas of nature influence the way cities are perceived, designed, built, and managed; and how natural processes and urban form interact and the consequences of these for human health safety and welfare. Enrollment limited.

*A. Spirn***11.309[J] Sensing Place: Photography as Inquiry**

Same subject as 4.215[J]

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Spring)

3-0-9 units

Explores photography as a disciplined way of seeing, of investigating urban landscapes and expressing ideas. Readings, observations, and photographs form the basis of discussions on light, detail, place, poetics, narrative, and how photography can inform design and planning. Enrollment limited.

A. Spirn

11.312 Engaging Community: Models and Methods for Strengthening Democracy

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Spring)

3-0-9 units

Students examine design principles, and review and practice strategies, techniques, and methods for creating public engagement practices that are necessary for building inclusive civic infrastructure in cities, with the premise that demographic complexity presents fundamental design challenges for planners and other professions that have a responsibility to engage the public.

C. McDowell

11.313 Advanced Research Workshop in Landscape and Urbanism

Prereq: Permission of instructor

G (Spring)

Not offered regularly; consult department

3-0-9 units

In-depth research workshop on pressing environmental design issue of our time, includes discussion and practices of various Landscape-based disciplines used to generate design-based solutions and landscape infrastructural responses to physical urban entropy and decline. Specific focus is adjusted each year.

A. Berger

11.315[[]] Disaster Resilient Design

Same subject as 4.217[[]]

Subject meets with 4.218

Prereq: None

G (Fall)

Not offered regularly; consult department

3-0-6 units

See description under subject 4.217[[]]. Limited to 15.

Consult M. Mazereeuw

11.318 Senseable Cities

Prereq: Permission of instructor

G (Spring)

Not offered regularly; consult department

3-0-9 units

Studies how ubiquitous and real-time information technology can help us to understand and improve cities and regions. Explores the impact of integrating real-time information technology into the built environment. Introduces theoretical foundations of ubiquitous computing. Provides technical tools for tactile development of small-scale projects. Limited to 24.

C. Ratti

11.320 Digital City Design Workshop

Prereq: Permission of instructor

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Spring)

3-0-9 units

Students develop proposals, at the city and neighborhood scales, that integrate urban design, planning, and digital technology. Aims to create more efficient, responsive, and livable urban places and systems that combine physical form with digital media, sensing, communications, and data analysis. Students conduct field research, build project briefs, and deliver designs or prototypes, while supported by lectures, case studies, and involvement from experts and representatives of subject cities. Limited to 12.

C. Ratti

11.321 Data Science and Machine Learning Principles for Real Estate

Prereq: None

G (Spring)

4-0-5 units

Core skills for development, design and planning are shifting rapidly to encompass data science and machine learning. This course introduces you to the principles of data science and machine learning that are impacting the domain of real estate today. In the course, we will hear from data scientists across technology companies, learn core data science in R, create value propositions for real estate stakeholders using econometrics and produce predictive analytics using machine learning techniques. Students will walk away from this class with three data science kits for future practical use - evaluating and completing a real estate data set, explaining real estate outcomes and the fundamentals of predicting in real estate.

A. Chegut

11.322 Innovative Products, Spaces, and Technology

Prereq: None

G (Spring; second half of term)

1-0-2 units

Focuses on the economic foundations of innovation, trace innovation to the primary and secondary commercial real estate markets, and survey products, spaces and technologies in the commercial real estate development pipeline of today and beyond. Candidly discusses the challenges faced by innovators in the real estate innovation domain.

A. Chegut

11.323 International Real Estate Transactions

Prereq: None

G (Spring; second half of term)

3-0-3 units

Focuses on analyzing a variety of unique international real estate investment and development transactions. Blends real estate investing and development decision-making with discussion-based learning from a multidisciplinary standpoint. Seeks to facilitate a richer understanding of domestic (US) real estate transaction concepts by contextualizing them in the general analytical framework underpinning international real estate investment decision-making.

*M. Srivastava***11.328[] Urban Design Skills: Observing, Interpreting, and Representing the City**

Same subject as 4.240[]

Prereq: None

G (Fall)

4-2-2 units

Introduces methods for observing, interpreting, and representing the urban environment. Students draw on their senses and develop their ability to deduce, question, and test conclusions about how the built environment is designed, used, and valued. The interrelationship of built form, circulation networks, open space, and natural systems are a key focus. Supplements existing classes that cover theory and history of city design and urban planning and prepares students without design backgrounds with the fundamentals of physical planning. Intended as a foundation for 11.329[].

*E. Ben-Joseph***11.329[] Advanced Urban Design Skills: Observing, Interpreting, and Planning the City (New)**

Same subject as 4.248[]

Prereq: 11.328[]

G (Fall; second half of term)

4-2-4 units

Through a studio-based course in planning and urban design, builds on the foundation acquired in 11.328[] to engage in creative exploration of how design contributes to resilient, just, and vibrant urban places. Through the planning and design of two projects, students creatively explore spatial ideas and utilize various digital techniques to communicate their design concepts, giving form to strategic thinking. Develops approaches and techniques to evaluate the plural structure of the built environment and offer propositions that address policies and regulations as well as the values, behaviors, and wishes of the different users.

*E. Ben-Joseph***11.330[] The Making of Cities**

Same subject as 4.241[]

Prereq: 11.001[], 11.301[], or permission of instructor

G (Spring)

Units arranged

See description under subject 4.241[].

*L. Jacobi, R. Segal***11.332[] Urban Design Studio**

Same subject as 4.163[]

Prereq: Permission of instructor

G (Fall, Spring)

Units arranged

Can be repeated for credit.

See description under subject 4.163[].

*Consult R. Segal***11.333[] Urban Design Seminar: Perspectives on Contemporary Practice**

Same subject as 4.244[]

Prereq: None

G (Spring)

2-0-7 units

Examines innovations in urban design practice occurring through the work of leading practitioners in the fields of architecture, landscape architecture, and urban planning. Features lectures by major national and global practitioners in urban design. Projects and topics vary based on term and speakers but may cover architectural urbanism, landscape and ecology, arts and culture, urban design regulation and planning agencies, and citywide and regional design. Focuses on analysis and synthesis of themes discussed in presentations and discussions.

*Staff***11.334[] Advanced Seminar in Landscape and Urbanism**

Same subject as 4.264[]

Prereq: Permission of instructor

G (Spring)

Not offered regularly; consult department

3-0-9 units

Explores theories, practices, and emerging trends in the fields of landscape architecture and urbanism, such as systemic design, landscape urbanism, engineered nature, drosscapes, urban biodiversity, urban mobility, megaregions, and urban agriculture. Lectures, readings, and guest speakers present a wide array of multi-disciplinary topics, including current works from P-REX lab. Students conduct independent and group research that is future-oriented.

A. Berger

11.337[J] Urban Design Ideals and Action

Same subject as 4.247[J]

Prereq: None

G (Spring)

2-0-7 units

Examines the relationship between urban design ideals, urban design action, and the built environment through readings, discussions, presentations, and papers. Analyzes the diverse design ideals that influence cities and settlements, and investigates how urban designers use them to shape urban form. Provides a critical understanding of the diverse formal methods used to intervene creatively in both developed and developing contexts, especially pluralistic and informal built environments.

B. Ryan

11.338 Urban Design Studio

Prereq: 11.328[J]

G (Spring)

Not offered regularly; consult department

0-12-9 units

Examines the rehabilitation and re-imagination of a city. Analyzes the city at three scales: citywide, neighborhood, and individual dwellings. Aims to shape innovative design solutions, enhance social amenity, and improve economic equity through strategic and creative geographical, urban design and architectural thinking. Intended for students with backgrounds in architecture, community development, and physical planning. Limited to 12 via application and lottery.

B. Ryan

11.339 Downtown

Subject meets with 11.026[J], 21H.321[J]

Prereq: None

G (Spring)

Not offered regularly; consult department

2-0-7 units

Seminar on downtown in US cities from the late 19th century to the late 20th. Emphasis on downtown as an idea, place, and cluster of interests, on the changing character of downtown, and on recent efforts to rebuild it. Topics considered include subways, skyscrapers, highways, urban renewal, and retail centers. Focus on readings, discussions, and individual research projects. Students taking graduate version complete additional assignments.

R. M. Fogelson

11.344[J] Innovative Project Delivery in the Public and Private Sectors

Same subject as 1.472[J]

Prereq: Permission of instructor

G (Spring; first half of term)

2-0-4 units

Develops a strong strategic understanding of how best to deliver various types of projects in the built environment. Examines the compatibility of various project delivery methods, consisting of organizations, contracts, and award methods, with certain types of projects and owners. Six methods examined: traditional general contracting; construction management; multiple primes; design-build; turnkey; and build-operate-transfer. Includes lectures, case studies, guest speakers, and a team project to analyze a case example.

C. M. Gordon

11.345[J] Entrepreneurship in the Built Environment

Same subject as 1.462[J]

Prereq: Permission of instructor

G (Fall; first half of term)

2-0-4 units

Introduction to entrepreneurship and how it shapes the world we live in. Through experiential learning in a workshop setting, students start to develop entrepreneurial mindset and skills. Through a series of workshops, students are introduced to the concept of Venture Design to create new venture proposals for the built environment as a method to understand the role of the entrepreneur in the fields of design, planning, real estate, and other related industries.

S. Gronfeldt, G. Rosenzweig

11.350 Sustainable Real Estate: Economics & Business (New)

Prereq: None

G (Spring)

3-0-9 units

Offers insight into tension and synergy between sustainability and the real estate industry. Considers why sustainability matters for real estate, how real estate can contribute to sustainability and remain profitable, and what investment and market opportunities exist for sustainable real estate products and how they vary across asset classes. Lectures combine economic and business insights and tools to understand the challenges and opportunities of sustainable real estate. Provides a framework to understand issues in sustainability in real estate and examine economic mechanisms, technological advances, business models, and investment and financing strategies available to promote sustainability. Discusses buildings as basic physical assets; cities as the context where buildings interact with the built environment, policies, and urban systems; and portfolios as sustainable real estate investment vehicles in capital markets. Enrollment for MSRED, MCP, and MBA students is prioritized.

Zheng, Siqu; Tan, Zhengzhen

11.351 Real Estate Ventures I: Negotiating Development-Phase Agreements

Prereq: None

G (Fall)

3-0-9 units

Focuses on key business and legal issues within the principal agreements used to control, entitle, capitalize, and construct a mixed-use real estate development. Through the lens of the real estate developer and its counter-parties, students identify, discuss, and negotiate the most important business issues in right of entry, purchase and sale, development, and joint-venture agreements, as well as a construction contract and construction loan agreement. Students work closely with attorneys who specialize in the construction of such agreements and with students from area law schools and Columbia University and New York University. Enrollment limited to approximately 25; preference to MSRED students. No listeners.

W. T. McGrath

11.352 Real Estate Ventures II: Negotiating Leases, Financings, and Restructurings

Prereq: None

G (Spring)

3-0-9 units

Focuses on key business and legal issues within the principal agreements used to lease, finance, and restructure a real estate venture. Through the lens of the real estate developer and its counter-parties, students identify, discuss and negotiate the most important business issues in office and retail leases, and permanent loan, mezzanine loan, inter-creditor, standstill/forbearance, and loan modification (workout) agreements. Students work closely with attorneys who specialize in the construction of such agreements and with students from area law schools and New York University and Columbia University. Single-asset real estate bankruptcy and the federal income tax consequences of debt restructuring are also addressed. Enrollment limited; preference to MSRED students; no Listeners.

W. T. McGrath

11.353[J] Securitization of Mortgages and Other Assets (New)

Same subject as 15.429[J]

Prereq: 11.431[J], 15.401, or permission of instructor

G (Spring; first half of term)

3-0-6 units

Investigates the economics and finance of securitization. Considers the basic mechanics of structuring deals for various asset-backed securities. Investigates the pricing of pooled assets, using Monte Carlo and other option pricing techniques, as well as various trading strategies used in these markets.

W. Torous

11.355 International Housing Economics and Finance

Prereq: 11.202, 11.203, 14.01, or permission of instructor

G (Spring)

3-0-6 units

Credit cannot also be received for 11.145

Presents a theory of comparative differences in international housing outcomes. Introduces institutional differences in ways housing expenditures are financed, and economic determinants of housing outcomes (construction costs, land values, housing quality, ownership rates). Analyzes flow of funds to and from the different national housing finance sectors. Develops an understanding of the greater financial and macroeconomic implications of mortgage credit sector, and how policies affect ways housing asset fluctuations impact national economies. Considers perspective of investors in international real estate markets and risks and rewards involved. Draws on lessons from international comparative approach, applies them to economic and finance policies at the local, state/provincial, and federal levels within country of choice. Meets with 11.145 when offered concurrently. Students taking graduate version complete additional assignments.

A. Saiz

11.356 Healthy Cities: Assessing Health Impacts of Policies and Plans

Subject meets with 11.156

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Spring)

3-0-9 units

Examines the built, psychosocial, economic, and natural environment factors that affect health behaviors and outcomes. Introduces tools designed to integrate public health considerations into policymaking and planning. Provides extensive practical training in the application of health impact assessment (HIA) methodology, which brings a health lens to policy, budgeting, and planning debates. Emphasizes health equity and healthy cities. Students taking graduate version complete additional assignments. Limited to 30.

M. Arcaya

11.360 Community Growth and Land Use Planning

Prereq: Permission of instructor

G (Fall)

3-0-9 units

Seminar, workshops, and fieldwork on strategies to use municipal land use regulations to shape urban growth and equity. Practicum workshop builds skills in civic engagement, policy-relevant research, zoning regulations, and physical design and planning. The workshop begins with implementation of qualitative and quantitative research into the existing built environment, social, economic, and political context. It continues with the planning, design, and implementation of community engagement strategies to shape goals and vision for the projects. The practicum then explores land use scenarios, design and innovative zoning and regulatory techniques, to improve equity in the areas of housing, environment, economic development, mobility, and the public realm. Projects arranged with small teams serving municipal clients experiencing pressures of urban growth and change in Massachusetts. Preference to MCP second year students.

J. Levine

11.365 Sustainable Urbanization Practicum

Prereq: None

G (Spring)

3-0-9 units

Working with a city development client (city government/real estate developer/NGO) in a fast-urbanizing region, practicum provides students an opportunity to synthesize policy, planning or urban science solutions towards sustainable urbanization, within the constraints of a client-based project. Priority is given to MCP students.

S. Zheng

11.366[] China's Urbanization, Digital Technology and Innovation Market

Same subject as 15.237[]

Subject meets with 11.066[], 15.2371[]

Prereq: None

G (Spring; first half of term)

3-0-3 units

Focuses on the digital/smart city and on the urbanization of China, the world's biggest digital market. Explores the challenges, tradeoffs and issues associated with venture entering China's urbanization market, and guides teams to establish key connections with local partners, customers, and other stakeholders. Student teams apply this knowledge to an innovation and entrepreneurship-focused action learning project in which they work towards launching pilots and establishing ventures in China. Students taking graduate version complete additional assignments.

Z. Tan, J. Grant, Y. Huang

11.367 The Law and Politics of Land Use

Prereq: Permission of instructor

G (Spring)

3-0-9 units

Analysis of local and state power to regulate land use and development. Particular emphasis on the evolution of planning and zoning regulations, and the perceived narrowing of the relationship between public improvements requirements and development impact. The ability of regulatory bodies to impose environmental performance standards and limit development activity is explored in relation to recent Supreme Court and State SJC decisions. Development decisions rendered by public agencies are reviewed, critiqued, and discussed.

*T. S. Szold***11.368 Environmental Justice: Law and Policy**

Subject meets with 11.148

Prereq: Permission of instructor

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Fall)

3-0-9 units

Introduces frameworks for analyzing and addressing inequalities in the distribution of environmental benefits and burdens, particularly by race and by class. Explores the foundations and principles of the environmental justice movement from the perspectives of social science, public policy, and law. Introduces basic principles of US constitutional and environmental law, with a focus on equal protection and civil rights. Applies environmental justice principles to contemporary issues in urban policy and planning, including effects of and responses to climate change and global heating. Students taking graduate version complete additional assignments.

*J. Steil***11.371[J] Sustainable Energy**

Same subject as 1.818[J], 2.65[J], 10.391[J], 22.811[J]

Subject meets with 2.650[J], 10.291[J], 22.081[J]

Prereq: Permission of instructor

G (Fall)

3-1-8 units

See description under subject 22.811[J].

*M. W. Golay***11.373[J] Science, Politics, and Environmental Policy**

Same subject as 12.885[J]

Subject meets with 12.385

Prereq: Permission of instructor

G (Fall)

3-0-6 units

See description under subject 12.885[J].

*S. Solomon, J. Knox-Hayes***11.376 Urban Sustainability in Action**

Prereq: Permission of instructor

G (Spring)

Not offered regularly; consult department

3-0-9 units

Considers the theory and practice of urban sustainability. Introduces concepts of environmental sustainability, systems dynamics, ecological footprints, and environmental indicators. Investigates cutting-edge practices of cities in the US and around the world. Drawing on those examples, students work in and around the City of Boston on local sustainability initiatives.

*Staff***11.377 Food Systems and the Environment**

Prereq: Permission of instructor

G (Fall)

Not offered regularly; consult department

3-0-9 units

Explores the evolution of food production in the US and globally. Considers the science, economics, and politics behind the transition from pre-industrial to an industrial food system. Debates the costs and benefits of genetically modified food, organic agriculture, and local/regional food production. Focuses on the environmental sustainability and human-health consequences of different approaches, for both the developed and developing world.

*Staff***11.380 Urban Climate Adaptation**

Prereq: Permission of instructor

G (Spring)

Not offered regularly; consult department

3-0-9 units

Examines the challenges cities face and strategies to prepare for the impacts of climate change. Particular attention to the needs of vulnerable populations and resource-constrained cities, global and national adaptation policies and funding mechanisms, and ways in which local government and community-based activities can promote climate-readiness.

Staff

11.381 Infrastructure Systems in Theory and Practice

Prereq: (14.01 and (11.202 or 11.203)) or permission of instructor
G (Spring)
3-0-9 units

Examines theories of infrastructure from science and technology studies, history, economics, and anthropology in order to understand the prospects for change for many new and existing infrastructure systems. Examines how these theories are then implemented within systems in the modern city, including but not limited to, energy, water, transportation, and telecommunications infrastructure. Seminar is conducted with intensive group research projects, in-class discussions and debates.

D. Hsu

11.382 Water Diplomacy: The Science, Policy, and Politics of Managing Shared Resources

Prereq: Permission of instructor
Acad Year 2021-2022: Not offered
Acad Year 2022-2023: G (Spring)
3-0-9 units

Examines the history and dynamics of international environmental treaty-making, or what is called environmental diplomacy. Emphasizes climate change and other atmospheric, marine resource, global waste management and sustainability-related treaties and the problems of implementing them. Reviews the legal, economic, and political dynamics of managing shared resources, involving civil society on a global basis, and enforcing transboundary agreements. Focuses especially on principles from international relations, international law, environmental management, and negotiation theory as they relate to common-pool resource management.

L. Susskind

11.383[[]] People and Profits: Shaping the Future of Work

Same subject as 15.662[[]]
Prereq: None
G (Spring)
2-2-2 units

See description under subject 15.662[[]].

T. Kochan, B. Dyer

11.387 Environmental Finance and Political Economy

Prereq: Permission of instructor
G (Fall)
Not offered regularly; consult department
3-0-9 units

Examines the sociopolitical, cultural and economic dimensions of the financialization of environmental goods and services. Provides an introduction to key financial terms, practices, and institutions; analyzes the logics and origins of environmental finance, as well as the operation and implications of particular systems such as carbon-trading, REDD and ecosystem service pricing and swapping. Limited to 15.

J. Knox-Hayes

11.388[[]] Dimensions of Geoengineering

Same subject as 1.850[[]], 5.000[[]], 10.600[[]], 12.884[[]], 15.036[[]], 16.645[[]]
Prereq: None
Acad Year 2021-2022: Not offered
Acad Year 2022-2023: G (Fall; first half of term)
2-0-4 units

See description under subject 5.000[[]]. Limited to 100.

J. Deutch, M. Zuber

11.401 Introduction to Housing, Community, and Economic Development

Subject meets with 11.041
Prereq: None
G (Fall)
3-0-9 units

Provides a critical introduction to the shape and determinants of political, social, and economic inequality in America, with a focus on racial and economic justice. Explores the role of the city in visions of justice. Analyzes the historical, political, and institutional contexts of housing and community development policy in the US, including federalism, municipal fragmentation, and decentralized public financing. Introduces major dimensions in US housing policy, such as housing finance, public housing policy, and state and local housing affordability mechanisms. Reviews major themes in community economic development, including drivers of economic inequality, small business policy, employment policy, and cooperative economics. Expectations and evaluation criteria differ for students taking graduate version.

J. Steil

11.402 Urban Politics: Race and Political Change

Prereq: None

G (Fall)

Not offered regularly; consult department

3-0-9 units

Examines the place of US cities in political theory and practice. Particular attention given to contemporary issues of racial polarization, demographic change, poverty, sprawl, and globalization. Specific cities are a focus for discussion.

*J. P. Thompson***11.403 Urban China Research Seminar**

Prereq: Permission of instructor

G (Fall)

Not offered regularly; consult department

2-0-7 units

Can be repeated for credit.

Examines the behavioral foundations and key policy issues of urban development, real estate markets, and sustainability in China. Discusses urban agglomeration economies, place-based investment, and urban vibrancy; economic geography of innovation and entrepreneurship; real estate dynamics and housing policies; land use and transportation; and urban quality of life and green cities, focusing on China but with some international comparisons.

*S. Zheng***11.404 Housing Policy and Planning in the US and Abroad**

Prereq: None

G (Spring)

Not offered regularly; consult department

3-0-9 units

Explores the policy tools and planning techniques used to formulate and implement housing strategies at local, state and federal levels. Topics include America's housing finance system and the causes of instability in mortgage markets; economic and social inequity in access to affordable housing; approaches to meeting community housing needs through local and state planning programs; programs for addressing homelessness; and emerging ideas about sustainable development and green building related to housing development and renovation. Introduces comparative policy approaches from other countries.

*Staff***11.405 Political Economy & Society**

Prereq: Permission of instructor

G (Fall)

Not offered regularly; consult department

3-0-6 units

Focuses on the connection (or not) between mind (theory) and matter (lived experience). Examines basic tenets of classical and recent political economic theories and their explication in ideas of market economies, centrally planned economies, social market economies, and co-creative economies. Assesses theories according to their relation to the lived experiences of people in communities and workplaces.

*J. P. Thompson***11.407 Tools and Techniques for Inclusive Economic Development**

Subject meets with 11.107

Prereq: Permission of instructor

G (Fall)

3-0-9 units

Introduces tools and techniques in economic development planning. Extensive use of data collection, analysis, and display techniques. Students build interpretive intuition skills through user experience design activities and develop a series of memos summarizing the results of their data analysis. These are aggregated into a final report, and include the tools developed over the semester. Students taking graduate version will complete modified assignments focused on developing computer applications.

*A. Glasmeier***11.409 The Institutions of Modern Capitalism: States and Markets**

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Fall)

3-0-9 units

Investigates the relationship between states and markets in the evolution of modern capitalism. Critically assesses the rise of what Karl Polanyi and Albert Hirschman have referred to as "market society:" a powerful conceptual framework that views the development of modern capitalism not as an outcome of deterministic economic and technological forces, but rather as the result of contingent social and political processes. Exposes students to a range of conceptual tools and analytic frameworks through which to understand the politics of economic governance and to consider the extent to which societal actors can challenge its limits and imagine alternative possibilities. Sub-themes vary from year to year and have focused on racial capitalism, markets and morality, urban futures, and the global financial crisis. Limited to 25.

J. Jackson

11.411 The Political Economy of Planning (New)

Prereq: None
 Acad Year 2021-2022: Not offered
 Acad Year 2022-2023: G (Fall)
 3-0-9 units

Introduces students to key planning ideas and practices that shape the political economy of planning: the way that planning interventions generate distributional effects that create winners and losers across different spatial and temporal scales. Highlights ways in which planning interventions seek to order society and shape spaces, as well as the ways these efforts have been contested and resisted. Takes a global and comparative perspective, surveying planning ideas and experiences across diverse contexts. Develops analytic tools to understand the broad field of planning theory and the asymmetries of power that these imply in planning practice. Planning is a complex and multifaceted set of endeavors, and as such the class is interdisciplinary, drawing from planning theory and history as well as sociology, political science, geography, history, and the design disciplines.

J. Jackson

11.413 The Economic Approach to Cities and Environmental Sustainability

Subject meets with 11.113
 Prereq: 11.220, 14.300, or permission of instructor
 Acad Year 2021-2022: Not offered
 Acad Year 2022-2023: G (Spring)
 3-0-9 units
 Can be repeated for credit.

Provides a systematic framework of the interplay (both tension and synergy) between urbanization and environmental sustainability from a global perspective. Enhances analytical reasoning and quantitative skills to assist evidence-based empirical study and policy design evaluation. Explores the causes and consequences of urban environmental quality dynamics, and provides econometric tools to quantify such relationships. Examines state-of-the-art research in this field by introducing empirical studies from both developing and developed countries (highlighting fast urbanization). Themes include urban production, households, transportation and form, as well as political economy and climate resilience. Students taking graduate version complete additional assignments.

S. Zheng

11.427[J] Urban Labor Markets and Employment Policy

Same subject as 15.677[J]
 Prereq: Permission of instructor
 G (Spring)
 3-0-9 units

See description under subject 15.677[J].

P. Osterman

11.430[J] Leadership in Real Estate (New)

Same subject as 15.941[J]
 Prereq: None
 G (Spring; second half of term)
 3-0-3 units

Designed to help students deepen their understanding of leadership and increase self-awareness. They reflect on their authentic leadership styles and create goals and a learning plan to develop their capabilities. They also participate in activities to strengthen their "leadership presence" - the ability to authentically connect with people's hearts and minds. Students converse with classmates and industry leaders to learn from their insights, experiences, and advice. Limited to 15.

G. Schuck

11.431[J] Real Estate Finance and Investment

Same subject as 15.426[J]
 Prereq: Permission of instructor
 G (Fall)
 4-0-8 units

Concepts and techniques for analyzing financial decisions in commercial property development and investment. Topics include property income streams, discounted cash flow, equity valuation, leverage and income tax considerations, development projects, and joint ventures. An introduction to real estate capital markets as a source of financing is also provided. Limited to graduate students.

W. Torous

11.432[J] Real Estate Capital Markets

Same subject as 15.427[J]
 Prereq: 11.431[J] and (15.402 or 15.414)
 G (Spring; first half of term)
 2-0-4 units

Introduces real estate capital markets for institutional investors. Topics include real estate investment trusts (REIT), commercial mortgage-backed securities (CMBS), and private equity. Concepts and techniques for investment analysis may include portfolio theory and equilibrium asset pricing. Additional topics may include price indexing and derivatives. Focuses primarily on aggregates of many properties: portfolios, firms, markets, industries. Relates macro-level capital markets topics to micro-level bricks-and-mortar of real estate development projects in a direct and concrete manner.

D. Geltner

11.433[J] Real Estate Economics

Same subject as 15.021[J]

Prereq: 14.01, 15.010, or 15.011

G (Fall)

4-0-8 units

Develops an understanding of the fundamental economic factors that shape the market for real property, as well as the influence of capital markets in asset pricing. Analyzes of housing as well as commercial real estate. Covers demographic analysis, regional growth, construction cycles, urban land markets, and location theory as well as recent technology impacts. Exercises and modeling techniques for measuring and predicting property demand, supply, vacancy, rents, and prices.

W. C. Wheaton

11.434[J] Tools for Analysis: Design for Real Estate and Infrastructure Development

Same subject as 15.428[J], IDS.720[J]

Prereq: None

G (Spring; second half of term)

2-0-4 units

Introduction to analytical tools to support design and decision-making in real estate, infrastructure development, and investment. Particular focus on identifying and valuing sources of flexibility using "real options," Monte-Carlo simulation, and other techniques from the field of engineering systems. Integrates economic and engineering perspectives, and is suitable for students with various backgrounds. Provides useful preparation for thesis work in the area.

D. Geltner, R. de Neufville

11.435 Mixed-Income Housing Development

Prereq: None

G (Spring; first half of term)

4-0-8 units

Provides an overview of affordable and mixed-income housing development for students who wish to understand the fundamental issues and requirements of urban scale housing development, and the process of planning, financing and developing such housing. Students gain practical experience assembling a mixed-income housing development proposal.

P. Roth

11.436 Housing Studio: Neighborhood Sustainability Plan

Prereq: 11.301[J], 11.401, or 11.601

G (Spring)

Not offered regularly; consult department

6-0-9 units

Explores ways to improve housing quality and affordability, increase energy savings, and promote transportation access as part of a neighborhood sustainability plan. Students work with a local client to define the terms of local sustainability for a specific Boston neighborhood, then design an appropriate framework for action for the target site focusing on existing and future housing needs, community services, transit connections, and energy policy.

Staff

11.437 Financing Economic Development and Housing

Subject meets with 11.137

Prereq: None

G (Spring)

4-0-8 units

Studies financing tools and program models to support and promote local economic development and housing. Overview of public and private capital markets and financing sources helps illustrate market imperfections that constrain economic and housing development. Explores federal housing and economic development programs as well as state and local public finance tools. Covers policies and program models. Investigates public finance practice to better understand how these finance programs affect other municipal operations. Students taking graduate version complete additional assignments. Limited to 25.

J. Levine

11.438 Economic Development Planning

Prereq: 11.203, 11.220, and permission of instructor

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Spring)

3-0-9 units

Focuses on the policy tools and planning techniques used to formulate and implement local economic development strategies. Includes an overview of economic development theory, discussion of major policy areas and practices employed to influence local economic development, a review of analytic tools to assess local economies and how to formulate strategy. Coursework includes formulation of a local economic development strategy for a client. Limited to 15.

K. Seidman

11.439 Revitalizing Urban Main Streets

Prereq: (11.301[J], 11.328[J], or 11.401) and permission of instructor

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Spring)

4-0-11 units

Workshop explores the integration of economic development and physical planning interventions to revitalize urban commercial districts. Covers: an overview of the causes of urban business district decline, revitalization challenges, and the strategies to address them; the planning tools used to understand and assess urban Main Streets from both physical design and economic development perspectives; and the policies, interventions, and investments used to foster urban commercial revitalization. Students apply the theories, tools and interventions discussed in class to preparing a formal neighborhood commercial revitalization plan for a client business district. Limited to 15.

K. Seidman, M. A. Ocampo

11.444[J] The New Global Planning Practitioner

Same subject as 4.232[J]

Prereq: Permission of instructor

G (Fall)

3-0-6 units

See description under subject 4.232[J].

R. Goethert

11.449 Decarbonizing Urban Mobility (New)

Subject meets with 11.149

Prereq: None

G (Fall)

3-3-6 units

Focuses on measuring and reducing emissions from passenger transportation. After examining travel, energy, and climate conditions, students review existing approaches to transport decarbonization. Evaluates new mobility technologies through their potential to contribute to (or delay) a zero emission mobility system. Students consider the policy tools required to achieve approaches to achieve change. Frames past and future emission reductions using an approach based on the Kata Identity, decomposing past (and potential future) emissions into their component pieces. Seeks to enable students to be intelligent evaluators of approaches to transportation decarbonization and equip them with the tools to develop and evaluate policy measures relevant to their local professional challenges. Students taking graduate version complete additional assignments.

J. Zhao, A. Salzberg

11.450 Real Estate Development Building Systems

Prereq: None

G (Fall; first half of term)

2-0-1 units

Provides students with a concise overview of the range of building systems that are encountered in professional commercial real estate development practice in the USA. Focuses on the relationship between real estate product types, building systems, and the factors that real estate development professionals must consider when evaluating these products and systems for a specific development project. Surveys commercial building technology including Foundation, Structural, MEP/FP, Envelope, and Interiors systems and analyzes the factors that lead development professionals to select specific systems for specific product types. One or more field trips to active construction sites may be scheduled during non-class hours based on student availability.

Y. Tsipis

11.452 Planning against Evictions and Displacement

Prereq: None

Acad Year 2021-2022: G (Spring)

Acad Year 2022-2023: Not offered

3-0-9 units

Combines state-of-the-art research on evictions and displacement globally (in the context of the global crisis of evictions, land grabbing, and gentrification) with the study of policy and practical responses to displacement, assisted by selected case studies. First half covers explanations about the mechanisms and drivers of displacement, while the second half introduces and evaluates policy and legal responses developed by many actors. Analyzes the use of UN and national standards on displacement as well as the use of tools such as the Eviction Impact Assessment Tool. Limited to 15 graduate students.

B. Rajagopal

11.454 Big Data, Visualization, and Society

Subject meets with 11.154

Prereq: None

G (Fall)

3-0-9 units

Data visualizations communicate the insights found in data to non-technical audiences. Students develop technical skills to work with big data to expose societal issues and communicate the insights. Focuses on different topics each year. After framing that topic, the first half of the subject focuses on learning to analyze the data with Python. The second half of the subject focuses on learning web-based data visualization tools (JavaScript and D3). Students learn data storytelling concepts and produce web-based data visualizations for their final projects. Throughout, students learn ethical data practices. Students taking graduate version complete additional assignments.

S. Williams

11.457 More than Data: Smart Cities, Big Data, Civic Technology and Policy

Prereq: None

G (Spring)

Not offered regularly; consult department

3-0-6 units

Discussions of future directions in the 'smart cities' debate. Begins by framing the current smart city with past trends such as the efficient city movement of the 1930s and the Modernist city of the 1950s and 60s. Examines current trends in big data, civic apps, Code for America, the open data movement, DIY data collections devices, and their policy impacts.

S. Williams

11.458 Crowd Sourced City: Civic Tech Prototyping

Subject meets with 11.138

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Fall)

3-0-9 units

Investigates the use of social medial and digital technologies for planning and advocacy by working with actual planning and advocacy organizations to develop, implement, and evaluate prototype digital tools. Students use the development of their digital tools as a way to investigate new media technologies that can be used for planning. Students taking graduate version complete additional assignments.

C. D'Ignazio

11.461[J] Technocracy

Same subject as STS.463[J]

Prereq: None

G (Fall)

Not offered regularly; consult department

3-0-9 units

See description under subject STS.463[J].

J. S. Light

11.463[J] Structuring Low-Income Housing Projects in Developing Countries

Acad Year 2022-2023: G (Spring)

Units arranged

Can be repeated for credit.

See description under subject 4.230[J].

R. Goethert

11.469 Urban Sociology in Theory and Practice

Prereq: Permission of instructor
Acad Year 2021-2022: Not offered
Acad Year 2022-2023: G (Spring)
3-0-9 units

Introduction to core writings in urban sociology. Explores the nature and changing character of the city and the urban experience, providing context for the development of urban studies research and planning skills. Topics include the changing nature of community, neighborhood effects, social capital and networks, social stratification, feminist theory and critical race theory, and the interaction of social structure and political power. Subject will take place in the Massachusetts Correctional Institution at Norfolk with half of the class from MIT and half of the class from MCI-Norfolk. Limited to 25.

J. Steil

11.470 The Politics of Development Policy

Prereq: Permission of instructor
G (Fall)
Not offered regularly; consult department
3-0-9 units

Examines the political forces and conditions that affect urban, regional, and national development policymaking. Key protagonists include political parties, state actors, social movements, NGOs (domestic and global), business groups, and labor organizations, both formal and informal. Primary emphasis is the developing world, but seeks parallels across a variety of comparative and historical contexts.

Staff

11.472[[J]] D-Lab: Development

Same subject as EC.781[[J]]
Subject meets with 11.025[[J]], EC.701[[J]]
Prereq: None
G (Fall)
3-2-7 units

See description under subject EC.781[[J]]. Enrollment limited by lottery; must attend first class session.

S. L. Hsu, A. B. Smith, B. Sanyal

11.474 D-Lab: Water, Sanitation and Hygiene

Subject meets with EC.715
Prereq: None
Acad Year 2021-2022: Not offered
Acad Year 2022-2023: G (Spring)
3-0-9 units

Focuses on disseminating Water, Sanitation and Hygiene (WASH) or water/environment innovations in developing countries and underserved communities worldwide. Structured around field-based learning, case studies, lectures and videos in which teams propose an idea and are mentored through the process of bringing that innovation to fruition. Emphasizes core WASH and water/environment principles, culture-specific solutions, tools for start-ups, appropriate and sustainable technologies, behavior change, social marketing, building partnerships, and the theory and practice of innovation diffusion. Term project entails entering the IDEAS or other competition(s) while implementing a WASH innovation in a specific locale. Guest lectures on specific real-world WASH projects which have been disseminated by MIT faculty, students, alumni, and others. Students taking graduate version complete additional assignments. Limited to 30.

S. E. Murcott, S. L. Hsu

11.475 Navigating Power in Water and Sanitation Planning

Prereq: Open to undergraduates with permission of instructor
Acad Year 2021-2022: Not offered
Acad Year 2022-2023: G (Spring)
3-0-9 units

Informs and prepares students to navigate the explicit and implicit power dynamics among stakeholders in decision-making processes that govern the planning and delivery of water and sanitation systems. Through investigations of organization, regulation, financing, physical delivery, and research designs, students examine the trajectory of decisions that shape and influence the accessibility, affordability, and adequacy of water and sanitation services, particularly in vulnerable neighborhoods in mostly urban and peri-urban areas. Emphasis is placed on the importance of moving beyond the limited dimensions of supply and demand studies and gaining fluency in the multiplicative political-economic and social factors driving choices in water and sanitation systems planning. In-depth, globally comparative readings inform the course, and expose basic services in water and sanitation as a misnomer.

G. Carolini

11.477[J] Urban Energy Systems and Policy

Same subject as 1.286[J]

Subject meets with 11.165

Prereq: 11.203, 14.01, or permission of instructor

Acad Year 2021-2022: G (Fall)

Acad Year 2022-2023: Not offered

3-0-9 units

Examines efforts in developing and advanced nations and regions. Examines key issues in the current and future development of urban energy systems, such as technology, use, behavior, regulation, climate change, and lack of access or energy poverty. Case studies on a diverse sampling of cities explore how prospective technologies and policies can be implemented. Includes intensive group research projects, discussion, and debate.

D. Hsu

11.478 Behavioral Science and Urban Mobility

Subject meets with 11.158

Prereq: Permission of instructor

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Spring)

3-0-9 units

Examines the behavioral foundation for policy design using urban transportation examples. Introduces multiple frameworks for understanding behavior while contrasting the perspectives of classic economic theory with behavioral economics and social psychology. Suggests corresponding policy interventions and establishes a mapping across behavior, theory, and policy. Presents a spectrum of instruments for positively influencing behavior and improving welfare. Challenges students to critique, design, implement and interpret experiments that nudge travel behavior. Brings behavioral insights to creative design of transport policies that are efficient and equitable as well as simple, consistent, transparent, acceptable, and adaptive to behavioral changes. Students taking graduate version complete additional assignments.

J. Zhao

11.480 Urbanization and Development

Subject meets with 11.140

Prereq: None

G (Spring)

Not offered regularly; consult department

3-0-9 units

Examines developmental dynamics of rapidly urbanizing locales, with a special focus on the developing world. Case studies from India, China, Mexico, Brazil, and South Africa form the basis for discussion of social, spatial, political and economic changes in cities spurred by the decline of industry, the rise of services, and the proliferation of urban mega projects. Emphasizes the challenges of growing urban inequality, environmental risk, citizen displacement, insufficient housing, and the lack of effective institutions for metropolitan governance. Students taking graduate version complete additional assignments.

Staff

11.481[J] Analyzing and Accounting for Regional Economic Change

Same subject as 1.284[J]

Prereq: 14.03 and 14.04

G (Spring)

Not offered regularly; consult department

3-0-9 units

Surveys theories of regional growth, factor mobility, clustering, industrial restructuring, learning regions, and global supply chains from a political-economy perspective. Examines/critiques multipliers, linkages, and supply chains used to assess employment and environmental impacts, energy and infrastructure investments, and accounting issues related to the underground economy, work in the home, and environmental degradation. Assesses price indices, industrial location and employment measures, and shift-share analyses. Discussions of US and foreign applications.

Staff

11.482[J] Regional Socioeconomic Impact Analyses and Modeling

Same subject as 1.285[J]

Prereq: 11.481[J] or permission of instructor

G (Fall)

Not offered regularly; consult department

2-1-9 units

Reviews regional economic theories and models and provides students with experience in using alternative economic impact assessment models on microcomputers. Problem sets are oriented around infrastructure, housing, energy, and environmental issues. Students work with a client generally in Boston and make a presentation to the client. Emphasis on written and oral presentation skills.

K. R. Polenske

11.483 Housing and Land Use in Rapidly Urbanizing Regions

Prereq: Permission of instructor

G (Spring)

Not offered regularly; consult department

3-0-9 units

Studies current urban controversies over affordable housing, land redevelopment, and public space, with special attention to property rights. Reviews how law, economics, sociology and planning theories frame these issues and interplays them with spatial approaches of urban design and geography. Explores cases that use property rights strategies to increase economic growth and social justice, providing insight for future design and policymaking. Topics include land trusts for affordable housing, mixed-use public space, and critical cartography.

Y. Hong

11.484 Project Appraisal in Developing Countries

Subject meets with 11.144

Prereq: Permission of instructor

G (Spring)

Not offered regularly; consult department

3-0-9 units

Covers techniques of financial analysis of investment expenditures, as well as the economic and distributive appraisal of development projects. Critical analysis of these tools in the political economy of international development is discussed. Topics include appraisal's role in the project cycle, planning under conditions of uncertainty, constraints in data quality and the limits of rational analysis, and the coordination of an interdisciplinary appraisal team. Students taking graduate version complete additional assignments. Enrollment limited; preference to majors.

Y. Hong

11.485 Southern Urbanisms

Prereq: None

Acad Year 2021-2022: G (Fall)

Acad Year 2022-2023: Not offered

2-0-10 units

Guides students in examining implicit and explicit values of diversity offered in "Southern" knowledge bases, theories, and practices of urban production. With a focus on Sub-Saharan Africa, considers why the South-centered location of the estimated global urban population boom obligates us to examine how cities work as they do, and why Western-informed urban theory and planning scholarship may be ill-suited to provide guidance on urban development there. Examines the "rise of the rest" and its implications for the making and remaking of expertise and norms in planning practice. Students engage with seminal texts from leading authors of Southern urbanism and critical themes, including the rise of Southern theory, African urbanism, Chinese international cooperation, Brazilian urban diplomacy, and the globally-driven commodification of urban real estate.

G. Carolini

11.486 Conflict Geographies: Spaces of War, Memory, and Resistance

Prereq: None

G (Spring)

3-0-9 units

Explores the spatialization of conflict and peace from perspectives within the humanities and social sciences. Examines claims on territory, resources, and homeland; traces the legacies of violence in memory landscapes both personal and public; considers the use of planning and architecture to build peace and enact conquest; and considers forms of survival in fleeing for refuge and standing in protest. Discusses how conflict geographies such as these provide insight into the various scales of power and resistance that shape how individuals live together.

D. Wendel

11.487 Budgeting and Finance for the Public Sector

Subject meets with 11.147

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Spring)

3-0-9 units

Examines globally relevant challenges of adequately and effectively attending to public sector responsibilities for basic services with limited resources. Particular attention to the contexts of fiscal crises and rapid population growth, as well as shrinkage, through an introduction to methods and processes of budgeting, accounting, and financial mobilization. Case studies and practice exercises explore revenue strategies, demonstrate fiscal analytical competencies, and familiarize students with pioneering examples of promising budget and accounting processes and innovative funding mobilization via taxation, capital markets, and other mechanisms (e.g., land-value capture). Students taking graduate version explore the subject in greater depth.

G. Carolini

11.488 Urban Development in Conflict Cities: Planning Challenges and Policy Innovations

Prereq: Permission of instructor

G (Fall)

Not offered regularly; consult department

3-0-9 units

Economic, religious, gender and ethnic differences must be negotiated every day in the urban arena. When tensions and conflict escalates into violence, the urban space becomes the battlespace in which these tensions are negotiated. Examines urban development challenges in conflict cities through multiple disciplinary perspectives on urban conflict. Review of the literature about when violence and cities intersect. Focuses on policy innovations, and an examination of potential planning, design, and policy solutions.

Staff

11.490 Law and Development

Prereq: Permission of instructor

G (Spring)

Not offered regularly; consult department

2-0-10 units

Examines the role of law in development and introduces economic and legal theories. Topics include formality/informality of property, contracts and bargaining in the shadow of the law, institutions for transparency and accountability, legitimation of law, sequencing of legal reform, and international economic law aspects. Studies the roles of property rights in economic development, the judiciary and the bureaucracy in development, and law in aid policy. Includes selected country case studies. Limited to 15.

B. Rajagopal

11.493 Property and Land Use Law for Planners

Prereq: None

Acad Year 2021-2022: G (Fall)

Acad Year 2022-2023: Not offered

3-0-9 units

Examines legal and institutional arrangements for the establishment, transfer, and control over property and land under American and selected comparative systems, including India and South Africa. Focuses on key issues of property and land use law regarding planning and economic development. Emphasizes just and efficient resource use; institutional, entitlement and social relational approaches to property; distributional and other social aspects; and the relationship between property, culture, and democracy.

B. Rajagopal

11.494 Cities of Contested Memory

Prereq: None

Acad Year 2021-2022: G (Spring)

Acad Year 2022-2023: Not offered

3-0-9 units

Explores relationships between built environments and memory to consider the spaces and spatial practices in which the future of the past is imagined, negotiated, and contested. Focuses on three areas of critical importance to understanding the nature of memory in cities today: the threats that rapid urban development pose to the remembrance of urban pasts; the politics of representation evident in debates over authorized and marginalized historical narratives; and the art and ethics of sensitively addressing the afterlives of violence and tragedy. Emphasizes group discussions and projects as means to explore collective and counter memories, the communities that are formed therein, and the economic, social, and political forces that lift up certain memories over others to shape the legacy of the past. Limited to 15.

D. Wendel

11.495 Governance and Law in Developing Countries

Prereq: Permission of instructor

G (Fall)

Not offered regularly; consult department

2-0-10 units

Examines the multiple dimensions of governance in international development with a focus on the role of legal norms and institutions in the balance between state and the market. Analyzes changes in the distribution of political and legal authority as a result of economic globalization. Topics include the regulation of firms; forms of state and non-state monitoring; varieties of capitalism, global governance and development; and good governance, including transparency and accountability mechanisms, the role of the judiciary and legal culture, and tools for measuring governance performance.

B. Rajagopal

11.496 Law, Social Movements, and Public Policy: Comparative and International Experience

Subject meets with 11.166

Prereq: Permission of instructor

G (Spring)

Not offered regularly; consult department

3-0-9 units

Studies the interaction between law, courts, and social movements in shaping domestic and global public policy. Examines how groups mobilize to use law to affect change and why they succeed and fail. Case studies explore the interplay between law, social movements, and public policy in current issues, such as gender, race, labor, trade, climate change/environment, and LGBTQ rights. Introduces theories of public policy, social movements, law and society, and transnational studies. Students taking graduate version complete additional assignments. Limited to 15.

B. Rajagopal

11.497 Human Rights at Home and Abroad

Subject meets with 11.164[[]], 17.391[[]]

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Fall)

2-0-10 units

Provides a rigorous and critical introduction to the history, foundation, structure, and operation of the human rights movement. Focuses on key ideas, actors, methods and sources, and critically evaluates the field. Addresses current debates in human rights, including the relationship with security, democracy, development and globalization, urbanization, equality (in housing and other economic and social rights; women's rights; ethnic, religious and racial discrimination; and policing/conflict), post-conflict rebuilding and transitional justice, and technology in human rights activism. Students taking graduate version expected to write a research paper.

B. Rajagopal

11.499 Master of Science in Real Estate Development Thesis Preparation

Prereq: None

G (Spring; first half of term)

2-0-1 units

Seminar provides students with a concise overview of the requirements for thesis writing and submission. Covers types of theses, COUHES requirements, formatting and submission requirements and stipulations. Culminates in submission of thesis proposal.

Staff

11.520 Workshop on Geographic Information Systems (GIS)

Prereq: 11.205 or permission of instructor

G (Fall, Spring; second half of term)

2-2-2 units

Includes spatial analysis exercises using real-world data sets, building toward an independent project in which students critically apply GIS techniques to an area of interest. Students build data discovery, cartography, and spatial analysis skills while learning to reflect on power and positionality within the research design process. Tailored to GIS applications within planning and design and emphasizes the role of reflective practice in GIS. Enrollment limited; preference to MCP students.

S. Williams, C. D'Ignazio, E. Huntley

11.521 Spatial Database Management and Advanced Geographic Information Systems

Prereq: 11.205 and *Coreq: 11.220*; or permission of instructor

G (Spring)

Not offered regularly; consult department

3-3-6 units

Credit cannot also be received for 11.523, 11.524

Extends the computing and geographic information systems (GIS) skills developed in 11.520 to include spatial data management in client/server environments and advanced GIS techniques. First half covers the content of 11.523, introducing database management concepts, SQL (Structured Query Language), and enterprise-class database management software. Second half explores advanced features and the customization features of GIS software that perform analyses for decision support that go beyond basic thematic mapping. Includes the half-term GIS project of 11.524 that studies a real-world planning issue.

J. Ferreira

11.522 Research Seminar on Urban Information Systems

Prereq: Permission of instructor

G (Fall)

Not offered regularly; consult department

2-4-6 units

Can be repeated for credit.

Advanced research seminar enhances computer and analytic skills developed in other subjects in this sequence. Students present a structured discussion of journal articles representative of their current research interests involving urban information systems and complete a short research project. Suggested research projects include topics related to ongoing UIS Group research.

J. Ferreira

11.523 Fundamentals of Spatial Database Management

Prereq: Permission of instructor

G (Spring; first half of term)

2-2-2 units

Credit cannot also be received for 11.521, 11.524

The fundamentals of database management systems as applied to spatial analysis. Includes extensive hands-on exercises using real-world planning data. Introduces database management concepts, SQL (Structured Query Language), and enterprise-class database software. Same content as first half of 11.521.

J. Ferreira

11.524 Advanced Geographic Information System Project

Prereq: 11.523 or permission of instructor

G (Spring; second half of term)

Units arranged

Can be repeated for credit. Credit cannot also be received for 11.521, 11.523

Learning and utilizing advanced geographic information system techniques in studio/lab setting with real-world client problem and complex digital spatial data infrastructure. Projects typically use the client and infrastructure setting for 11.521. Credit cannot also be received for 11.521 in the same term.

J. Ferreira

11.526[[]] Comparative Land Use and Transportation Planning

Same subject as 1.251[[]]

Prereq: Permission of instructor

G (Spring)

3-0-9 units

Focuses on the integration of land use and transportation planning, drawing from cases in both industrialized and developing countries. Reviews underlying theories, analytical techniques, and the empirical evidence of the land use-transportation relationship at the metropolitan, intra-metropolitan, and micro-scales. Also covers the various ways of measuring urban structure, form, and the "built environment." Develops students' skills to assess relevant policies, interventions and impacts.

C. Zegras

11.527 Advanced Seminar in Transportation Finance

Prereq: Permission of instructor

G (Fall)

Not offered regularly; consult department

2-1-9 units

Focuses on the theory and practice of transportation system finance, examining the range of relevant topics including basic public finance, politics, institutional structures, externalities, pricing, and the role of advanced technologies. Primarily oriented around land-based, surface transportation, although in their research students are welcome to examine air and maritime modes according to their interests. Explores issues across a range of contexts, including North America, Europe, Latin America, and Asia.

C. Zegras

11.528 Transportation and Urban Development Workshop

Prereq: Permission of instructor

G (Fall)

Not offered regularly; consult department

Units arranged

Combines class- and field-based learning and applications and includes four basic parts: knowledge of the context (field study); global knowledge of urban development-transportation integration (e.g., in-depth case studies); application of the global knowledge to specific field site(s); generalization of application(s) to potential sites across the metropolitan area. Over the course the term, students have the opportunity to deepen their knowledge of the local context; develop an understanding of how urban development and transportation can be viably integrated, generally; design proposals for specific sites; develop the business and social and development cases for the sites; and craft a plan to better integrate urban development and transportation in the metropolitan area, involving local authorities, private investors, and citizens.

C. Zegras

11.529[[]] Mobility Ventures: Driving Innovation in Transportation Systems

Same subject as 15.379[[]]

Subject meets with 11.029[[]], 15.3791[[]]

Prereq: None

G (Fall)

3-3-6 units

Explores technological, policy, behavioral and systems-wide frameworks for innovation in transportation systems, complemented with case studies across the mobility spectrum, from autonomous vehicles to urban air mobility to last-mile sidewalk robots. Students interact with a series of guest lecturers, including CEOs and other business and government executives who are actively reshaping the future of mobility. Includes a project module in which interdisciplinary teams of 4-5 students work for a business or a government to solve a real-world problem. Students taking graduate version complete additional assignments.

J. Zhao, J. Moavenzadeh, B. Aulet

11.533 Ecological Planning with GIS

Prereq: 11.205

G (Spring)

Not offered regularly; consult department

3-3-6 units

Provides a practical introduction to spatial environmental assessment and planning methods, from landscape to regional scales. Lectures and discussions focus on key concepts in landscape ecology as well as the data and methods needed to incorporate these concepts in environmental planning. Weekly lab exercises demonstrate how natural systems are represented in modern geographic information systems, how to synthesize information using overlay analysis and suitability modeling, and design methods that build on the resulting syntheses. Features raster GIS analysis methods.

Staff

11.540 Urban Transportation Planning

Prereq: Permission of instructor

G (Fall)

3-0-9 units

Studies the history, policy, practice and politics of urban transportation. Covers the role of the federal, state, and local government and the MPO, public transit in the auto era, analysis of current trends and pattern breaks; analytical tools for transportation planning, traffic engineering and policy analysis; the contribution of transportation to air pollution, social costs and climate change; land use and transportation interactions; traffic and place making; bicycles, pedestrians, and traffic calming. Examples from the Boston area and from Bilbao.

Staff

11.543[J] Transportation Policy, the Environment, and Livable Communities

Same subject as 1.253[J]
 Prereq: Permission of instructor
 Acad Year 2021-2022: Not offered
 Acad Year 2022-2023: G (Spring)
 3-0-9 units

Examines the economic and political conflict between transportation and the environment. Investigates the role of government regulation, green business and transportation policy as a facilitator of economic development and environmental sustainability. Analyzes a variety of international policy problems, including government-business relations, the role of interest groups, non-governmental organizations, and the public and media in the regulation of the automobile; sustainable development; global warming; politics of risk and siting of transport facilities; environmental justice; equity; as well as transportation and public health in the urban metropolis. Provides students with an opportunity to apply transportation and planning methods to develop policy alternatives in the context of environmental politics. Students taking graduate version complete additional assignments.

J. Coughlin

11.544[J] Transportation: Foundations and Methods

Same subject as 1.200[J]
 Subject meets with 1.041
 Prereq: 1.000, (1.00 and 1.010), or permission of instructor
 G (Fall)
 3-1-8 units

See description under subject 1.200[J].

C. Wu

11.545[J] Transportation Systems Analysis: Demand and Economics

Same subject as 1.201[J]
 Prereq: Permission of instructor
 G (Spring)
 Not offered regularly; consult department
 3-1-8 units

See description under subject 1.201[J].

Staff

11.601 Introduction to Environmental Policy and Planning

Prereq: None
 G (Fall)
 3-0-9 units

Required introductory subject for graduate students pursuing environmental policy and planning as their specialization in the MCP Program. Also open to other graduate students interested in environmental ethics, environmental dispute resolution, environmental justice and techniques of environmental impact assessment and risk assessment. Taught comparatively, with numerous references to examples from around the world. Four major areas of focus: national environmental policymaking, environmental ethics, environmental forecasting and analysis techniques, and strategies for collaborative decision-making.

L. Susskind

11.630[J] Environmental Law, Policy, and Economics: Pollution Prevention and Control

Same subject as 1.811[J], 15.663[J], IDS.540[J]
 Subject meets with 1.801[J], 11.021[J], 17.393[J], IDS.060[J]
 Prereq: None
 G (Spring)
 3-0-9 units

Reviews and analyzes federal and state regulation of air and water pollution, hazardous waste, green-house gas emissions, and the production and use of toxic chemicals. Analyzes pollution as an economic problem and the failure of markets. Explores the role of science and economics in legal decisions. Emphasizes use of legal mechanisms and alternative approaches (such as economic incentives and voluntary approaches) to control pollution and encourage chemical accident and pollution prevention. Focuses on the major federal legislation, the underlying administrative system, and the common law in analyzing environmental policy, economic consequences, and the role of the courts. Discusses classical pollutants and toxic industrial chemicals, green-house gas emissions, community right-to-know, and environmental justice. Develops basic legal skills: how to read/understand cases, regulations, and statutes. Students taking graduate version are expected to explore the subject in greater depth.

N. Ashford, C. Caldart

11.631[J] Regulation of Chemicals, Radiation, and Biotechnology

Same subject as 1.812[()], IDS.541[()]

Subject meets with 1.802[()], 10.805[()], 11.022[()], IDS.061[()], IDS.436[()]

Prereq: IDS.540[()] or permission of instructor

G (Spring)

Not offered regularly; consult department

3-0-9 units

Focuses on policy design and evaluation in the regulation of hazardous substances and processes. Includes risk assessment, industrial chemicals, pesticides, food contaminants, pharmaceuticals, radiation and radioactive wastes, product safety, workplace hazards, indoor air pollution, biotechnology, victims' compensation, and administrative law. Health and economic consequences of regulation, as well as its potential to spur technological change, are discussed for each regulator regime. Students taking the graduate version are expected to explore the subject in greater depth.

N. Ashford, C. Caldart

11.651[J] USA Lab: Bridging the American Divides

Same subject as 15.679[()]

Prereq: None

G (Spring)

3-1-5 units

See description under subject 15.679[()].

B. Dyer, L. Hafrey, T. Kochan

11.652[()] Research Seminar on Technology and the Work of the Future

Same subject as STS.465[()]

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Spring)

3-0-9 units

See description under subject STS.465[()]. Limited to 15.

D. Mindell, E. B. Reynolds

11.701 International Development Planning: Foundations

Prereq: None

G (Fall)

3-0-9 units

Studies interactions between planners and institutions at different scales, from local to global/transnational. Emphasizes historical and institutional approaches to development planning. Includes an overview of theories of development, actors, organizational arrangements, and implementation mechanisms. Covers current topics in development planning, such as migration, participatory planning, urban-rural linkages, corruption, legal institutions, and post-conflict development. Analyzes various roles planners play in different institutional contexts. Restricted to first-year MCP and SPURS students.

B. Rajagopal

Tutorials, Research, and Fieldwork Subjects

11.800 Reading, Writing and Research

Prereq: 11.233; Coreq: 11.801

G (Spring)

3-0-6 units

Required subject intended solely for 1st-year DUSP PhD students. Develops capacity of doctoral students to become independent scholars by helping them to prepare their first-year papers and plan for their dissertation work. Focuses on the process by which theory, research questions, literature reviews, and new data are synthesized into new and original contributions to the literature. Seminar is conducted with intensive discussions, draft writing, peer review, revisions, and editing. Guest speakers from faculty and advanced students discuss strategies and potential pitfalls with doctoral-level research.

M. Arcaya

11.801 Doctoral Research Paper

Prereq: None. Coreq: 11.800; permission of instructor

G (Spring)

3-0-6 units

Students develop a first-year research paper in consultation with their advisor.

Staff

11.901 Independent Study: Urban Studies and Planning

Prereq: Permission of instructor

Prereq: None

G (Fall, IAP, Spring)

Units arranged

Can be repeated for credit.

Practical application of planning techniques to towns, cities, and regions, including problems of replanning, redevelopment, and renewal of existing communities. Includes internships, under staff supervision, in municipal and state agencies and departments.

*Staff***11.909 Graduate Tutorial**

Prereq: None

G (Fall)

Units arranged [P/D/F]

Can be repeated for credit.

Planned programs of instruction for a minimum of three students on a planning topic not covered in regular subjects of instruction. Registration subject to prior arrangement with appropriate faculty member.

Staff

11.910 Doctoral Tutorial

Prereq: None

G (Fall)

Not offered regularly; consult department

3-0-3 units

Required subject exclusively for first-year DUSP PhD candidates, but with multiple colloquium sessions open to the full department community. Introduces students to a range of department faculty (and others) by offering opportunities to discuss applications of planning theory and planning history. Assists in clarifying the departments intellectual diversity. Encourages development of a personal intellectual voice and capacity to synthesize and respond to the arguments made by others.

L. Vale, J. Zhao

11.912[J] Advanced Urbanism Colloquium

Same subject as 4.275[J]

Prereq: Permission of instructor

G (Fall, Spring)

1-1-1 units

Can be repeated for credit.

See description under subject 4.275[J]. Preference to doctoral students in the Advanced Urbanism concentration.

Consult S. Williams

11.920 Planning in Practice

Prereq: Permission of instructor

G (Fall, IAP, Spring, Summer)

Units arranged [P/D/F]

Can be repeated for credit.

Familiarizes students with the practice of planning, by requiring actual experience in professional internship placements. Enables students to both apply what they are learning in their classes in an actual professional setting and to reflect, using a variety of platforms, on the learning -- personal and professional -- growing out of their internship experience. Through readings, practical experience and reflection, empirical observation, and contact with practitioners, students gain deeper general understanding of the practice of the profession.

M. J. Daly

11.930 Advanced Seminar on Planning Theory (New)

Prereq: None

Acad Year 2021-2022: Not offered

Acad Year 2022-2023: G (Fall)

2-0-10 units

Introduces students to key debates in the field of planning theory, drawing on historical development of the field of urban/regional/national planning from 1900 to 2020 in both the US and in newly industrializing countries. Class objectives are for students to develop their own theory of action as they become sensitized to issues of racial and gender discrimination in city building, and understand how planning styles are influenced by a range of issues, including the challenge of ethical practice.

B. Sanyal

11.960 Independent Study: Real Estate
